**HEAVY POWER BIO-TECH ADVANCED
MANUFACTURING R&D CAMPUS OPPORTUNITY
IN THE HEART OF EMERYVILLE**

BE A PART OF WAREHAM'S POWER

NEARLY 50 YEARS OF NEW
APPROACHES AND ADAPTABILITY
AT OUR INNOVATIVE R&D CAMPUS

Wareham's unrivaled history of creating one of the largest life science and research clusters in the Bay Area is well known. **Our research and development campuses continue to attract and retain the best and the brightest innovators because we as a company never shy away from doing things differently.**

Building our award-winning research and development campuses right to begin with lets our talented team of real estate development and property management professionals quickly and easily develop, redevelop, and upgrade our massive campus infrastructure to meet ongoing changes and needs of our amazing tenants and this great research cluster.

Our long-term commitment to the cities in which we build – to their schools, their artists, and to all the nonprofits that serve them – is also steadfast.

A wide-angle photograph of a modern laboratory interior. The space features a long wall of large, multi-paned windows on the left, offering a view of a parking lot with several cars and greenery outside. The floor is a smooth, light-colored material. A large, silver, corrugated metal duct runs horizontally across the ceiling, with a smaller rectangular vent attached to it. The ceiling itself is white with visible structural elements and red fire pipes. The overall atmosphere is clean and professional.
