ESTIMATE

| Services | qty | amount |
|---|-----|------------|
| Main Electrical Panel Change - Main Electrical Panel Change | 2.0 | \$6,800.00 |

- 1. Remove the existing main electrical panel.
- 2. Install (1) new 100 amp main electrical panel in its place.
- 3. Install (1) new riser pipe and wire to connect to PG&E.
- 4. Install (1) new ground rod to bond the electrical panel and the water system.
- 5. Install new circuit breakers in the electrical panel and terminate to the existing branch circuits.
- 6. Perform a panel schedule to identify the circuit breakers.
- 7. Test for proper function.

NOTE: Main panel replacements/upgrades can take anywhere from 4 to 10 weeks, excluding holidays and weekends, to schedule due to PGE's processing times.

If estimate is approved, please provide us with your "Service Agreement ID" 10-digit number which can be found on your latest bill. (Different from your account number)
