LAKE ANNA

Lake Anna is one of the largest freshwater inland lakes in Virginia, covering more than 13,000 acres with 225 miles of shoreline. Located 72 miles south (just over 1hr drive) of Washington, D.C. in Louisa, Orange and Spotsylvania counties, and close to Charlottesville and Fredericksburg, Lake Anna is easily accessible from anywhere in Virginia.

For nearly 40 years, Lake Anna has been a popular vacation and second home destination for residents of Virginia, Maryland and North Carolina. Alternatively, many people call the Lake Anna region home and that number of full-time residents only continues to rise.

Between 2019 and 2024, the population in Lake Anna is set to grow by over 8.5%, this is 10 times the national average.

Lake Anna is a growing community, the business scene has significantly picked up in recent years and more modern conveniences are arriving by the day. These are direct results of the rise in population growth and demand.

Lake Anna services a vast trade area of approximately 615 square miles. This has historically been an underserved market with a pent up demand for retail services and goods that continues to grow by the day. The spending power in this trade area totals \$1 Billion. As it stands today the supply in the market is only capturing roughly \$335 of that revenue leaving \$665 M in sales potential.

LOUISA COUNTY

Louisa County is located in the Central Piedmont region of Virginia near the geographic center of the state. Louisa is just 15 miles west of Greater Richmond, the state capitol, and 15 miles east of Greater Charlottesville, home of the University of Virginia. Louisa County is located just 90 miles south of the nations capital and 140 miles northwest of the port city of Norfolk.

The county's 517 square miles are a mix of residential, historic farms, open pasture and wooded area.

Increasingly the business community is finding Louisa to be an attractive central location for manufacturing and commercial investment.

STRATEGIC LOCATION

Close proximity to Washington DC and Richmond provides easy access to Federal and State Government agencies, related businesses, as well as to Washington Dulles International Airport for those who value being able to fly non-stop to most anywhere in the world.

East-west I-64 intersects the region, providing direct highway access to the heart of the mid-west and the many concentrations of different types of businesses that populate that part of the country. North-south I-81 and I-95 are within an hour or less from many places in the region where businesses might locate.

Population explosion expected for Louisa in coming years

Jul 7, 2017

New numbers predict that Louisa County's population will grow faster than previously thought.

Sixteen years ago, state officials projected that Louisa County would nearly double in population over the next half-century. Though the county experienced a dramatic slowdown in growth after The Great Recession hit in 2008, new projections released last week suggest that the 2001 numbers were on target.

The Weldon Cooper Center, an arm of the University of Virginia tasked by the state with forecasting how the Commonwealth will grow in the future, expects Louisa to have nearly 48,000 residents by 2045. There are just over 34,000 people in the county today.

The projections in the county's comprehensive plan, last updated in 2001, call for the number of residents to surpass 48,000, but not until 2050.

The reason the Cooper center says growth will speed up in Louisa in the future is because the county grew so much in the recent past. From 2000 to 2010, the population jumped by 29 percent, a rate of nearly three percent each year. Since then, the annual increase has been less than one percent. But it's not going to stay that way.

https://www.thecentralvirginian.com/news/local/population-on-the-rise-in-louisa-county/article_0481cd27-90a9-55c1-85ee-261318715c0b.html

Population on the rise in Louisa County

Mar 3, 2019

Louisa County population growth, 2001 to present

Louisa County's population grew last year at its fastest rate in a decade, with just under 1,000 new residents between 2017 and 2018. Estimates released by the University of Virginia's Weldon Cooper Center on Jan. 28 show the population was 36,021 as of July 2018. Population growth slowed dramatically after the Great Recession began in

Louisa County's population grew last year at its fastest rate in a decade, with just under 1,000 new residents between 2017 and 2018.

Estimates released by the University of Virginia's Weldon Cooper Center on Jan. 28 show the population was 36,021 as of July 2018. Population growth slowed dramatically after the Great Recession began in 2008, but it has bounced back.

Data provided by the Louisa County Community Development Department shows that many new residents are choosing to live in the Zion Crossroads and Lake Anna growth areas, but plenty of people still opt to settle in the county's rural sections.

Of 281 building permits issued for new single-family homes in 2018, 64 percent were for property in one of the seven growth areas. Seventy permits were for homes at Lake Anna and 56 in Zion Crossroads, with most of the latter in the Spring Creek subdivision.

The Countryside subdivision in the town of Louisa also saw a spurt in development, with 15 new permits. Another 15 homes are under construction in the Mineral growth area, eleven of them in the Hidden Farm Estates subdivision off of Chopping Road.

The most housing development in the rural parts of the county in 2018 was toward the east, with 41 new permits for homes in Bumpass, Holly Grove and areas in between. Another 27 permits were issued in the county's western third, closer to Gordonsville and Zion Crossroads.

Paul Snyder, the county's building official, said that while construction has picked up, it's still nothing like it was during the mid-2000s.

REAL ESTATE NEWS ROUND-UP

Low Interest Rates Continue To Fan Flames Of Hot Lake Market

BY LIBBY SANDRIDGE

Here at Lake Anna, we definitely entered 2021 with pandemic fatigue but we are all so thankful that there is finally an end in sight. A huge shout out for the vaccine! So, how did all this affect the real estate market at beautiful Lake Anna? Well, there is good news and bad news to report.

The good news is that 2020 brought us record sales as everyone began fleeing the cities for a more rural life. Lake Anna's buyers reaped the rewards of the low interest rates while sellers won out on the rising property values due to the high demand.

The bad news is that last year's sales has left us with low inventory so buyers have less to choose from, plus competing offers. The vacation rental market was

also in high demand last year and still going strong. So, what does this all mean for sellers? Low inventory means less selling competition and increasing property values. So, for current lake home owners if you have ever considered selling now maybe the time to get with a local lake agent to find out how much your home is worth.

As the saying goes you have to make hay while the sun is shining and the sun is shining brightly on Lake Anna real estate! However, that being said, I have seen that some overly excited sellers have got the bug and we are seeing some overpricing. If your home has sat on the market for over a month in this hot market then get with your agent to make sure you are priced according to recent sales. Also ask if there are any repairs, updates or

10,000 sq. ft. home under construction in the Tara Woods community of the lake by Spartan Homes.

consider when you are shopping your odds of getting an offer. If you are wanting a home at Lake Anna, you do not have the luxury or time to hem and haw in making a decision. Consider getting pre-approved prior to shopping if you are financing. Sellers require an approval in order to

consider your offer and time is definitely a factor so be prepared to move quickly. Time is definitely of the essence.

Also, you need to consider sacrificing some wants for your must haves. Many real estate experts recommend finding the least expensive home in the best neighborhood and upgrade over time.

Also consider, writing a letter to the sellers to go with your offer. Include tidbits about your family and how you plan to use the home. Many sellers like to know their home will be loved as much as they did. Currently we have sold 42 waterfront homes since the beginning of the year with 14 pending. There have been 51 lake access homes sold so far. We only have 16 waterfront homes and 17 water access homes on the market. Lots are exceeding home sales which is unusual. So far, 61

REAL ESTATE NEWS ROUND-UP

New Homes, New Developments And New Residents For 2021

BY LIBBY SANDRIDGE

Last year brought us many new challenges to say the least and thankfully we were able to navigate them successfully here at Lake Anna. Even during these uncertain times the economic outlook for Virginia as a whole, appears that it will continue to remain strong for 2021.

With the historically low interest rates and lack of inventory property values are on the rise. Most homes at the lake are selling at and often above list price and in record time.

Land sales went through the roof last year with 190 lots sold at the lake. We closed 75 waterfront lots compared to 30 in 2019. There were 115 lake access lots sold compared to 47 lots that sold in 2019!

Land sales picked up for several reasons and the main driver was lack of housing inventory at the lake. Home sales for 2020 exceeded

2019 by 70 which includes waterfront and lake access homes. We had a good year in 2019 with home sales as well. So by the time we got to May 2020, buyers were forced to look at buying land and building in order to make their Lake Anna dreams a reality.

We do expect to see home prices continue to rise at the lake, however it is rumored that the mortgage rates will gradually rise. That being said even if they go up some it is still an unbelievably low rate, so buyers will continue to flood the market for homes especially at Lake Anna.

Buyers need to make sure to shop with a local agent to be setup for easy quick searches so they do not miss out on any new listings especially for the waterfront homes. Shopping on Zillow is not recommended if you are in the market to buy now.

Generally once a good home hits the market it is receiving offers within the first two days

Lake Anna's full time population has increased greatly in the past eight months with homes and land selling briskly, if not the day of. Builders are back building spec homes so you want to have that information as soon as possible too since they are selling before completion.

Thinking of selling? Now is the time! I know due to so much uncertainty because of the pandemic and changing times, it can be difficult to make

decisions for those not living in the area, a local agent is a must.

Things can happen in a home that is not lived in so I recommend an agent that can visit the home weekly, at a minimum. Hiring contractors out of Google can and will go wrong, so having a local agent who lives at the lake and knows the local contractors is best for sellers and buyers alike.

Also, please stay tuned for future updates on any and all new developments at the lake including the new private side development. As winter winds down and the weather continues to hold we may see these 56 new lots come available as early as this spring or summer.

There is also a large commercial parcel available off of Courthouse Road (Rt. 208) that may be interesting to those wanting to startup a new business at the lake. It is 16+ acres and has 1,000' of waterfront. **LIA**

I also want to recommend that sellers have a local/resident REALTOR as well. Espe-

Contact the author at libbysandrige@comcast.net

Many of them had concerns about selling their inheritance and they wanted to know that they were being treated fairly, and he was able to reassure them about selling the land that had been in their family for so many generations. Butch says when it comes to developing it is important to focus on "trust, not dollars".

When asked what makes Lake Anna, in his opinion, different from other water resort areas such as Smith Mountain Lake or the tidal Potomac River, he says from a real estate standpoint, when you get into the tidal waters you need to worry about flood insurance, which can be extremely costly. He also believes the slowness to develop around Lake Anna has been an asset because it has kept the growth at a more reasonable pace.

While Lake Anna has grown over the years, Butch's daughter, Kay Lynn Weaver, who has been coming to Lake Anna since she was ten years old, points out the biggest change she has noticed is that the lake used to be mostly weekenders.

Kay Lynn told Life & Times the lake used to be desolate during the week but now more and more people are calling Lake Anna home full-time like her father.

The increase of full-time residents has allowed for many wonderful gatherings to take place that allows people to know their neighbors and form even deeper connections in the community.

Dockside Realty owner Dave Moberly had this to say about Weaver, "He's my best friend and an awesome

Lakehouse & Land

continued from page 10

waterfront lots (which includes the pending sales) and 68 access lots has sold since the first of the year.

With lot sales on the rise since 2020 the builders are booming and the demand has also affected building material cost which was also hurt by the pandemic. Many industries are down and not working therefore creating a demand from everything to building materials, boats, RV's and basically anything that involves home improvement and outdoor recreation.

Lake Anna is such a beautiful place and perfectly located with easy access to Northern Virginia, Maryland, DC, Richmond and Charlottesville making it a perfect destination. So, get with a local lake agent to find your perfect place or to find out how much your home is worth!

I am looking forward to seeing you on or around the lake! **LIA**

LAKE ANNA AREA NEWS

Lake RV Resort Planners Listening To Community Concerns

On January 21 Gay & Neil, Inc., representatives for the Four Seasons at Lake Anna, LLC submitted a site plan to the Spotsylvania Planning Commission for a proposed RV resort in Spotsylvania County on the Pamunkey Branch of Lake Anna.

Representatives from VDOT and the VDH attended the meeting to pose concerns and questions. The planning commissioners were mostly interested in the impact of the wastewater treatment plan and in the safety of the entrance to the project off Rt. 522. They also wanted to make sure that the resort would not be open to the general public.

Aerial view of proposed RV resort on the Pamunkey Branch of Lake Anna.

period on a webpage (Virtual Community Meeting) that shows the plan, then a public hearing and then applicant responds to the agencies' comments. Four Seasons at Lake Anna, LLC representative Trey Willis told Life & Times.

Spotsylvania Supervisor Barry Jett has the proposed RV resort in his district - Livingston. Life & Times asked what he thought of the proposed site plan and any concerns he might have on an RV park for that area of the lake.

My constituents as well as myself have major concerns with the resort adding to the HAB, 300 boat slips (too many), depth of water, traffic coming off Rt. 522 and the solid waste.

perience with world-class amenities. We are interviewing several firms that specialize in RV resort management and design. It's our goal to partner with one of these firms to maximize the offerings we will be providing."

We also asked the #1 question of "Why do you think an RV resort is needed at Lake Anna?"

"We know from experience and research there is a need for this type of outdoor hospitality venue in the region. Our team is confident that the proposed plan will be a tremendous success and a terrific addition to the Lake Anna community."

We also asked Willis to offer a macro view of the plan for the RV resort - as in the # of sites, % green space, amenities and overall impact to the Lake Anna community.

"We are working with the county and the community on making this venue a best-in-class property. Our planning team is seeking to maximize green space."

RV Resort Update

continued from page 17

space and develop a plan that best meets the goals for the property." To address the RV resort plan versus by right homes Life & Times asked Willis to contrast and compare the footprint of the proposed RV resort versus the amount of homes the land could support.

"Any plan that is proposed will be an approved design with the inputs of the surrounding area. The land use is consistent with the master land plan for the County. We've taken great care to listen to the inputs of the community as well as the County and we are confident the venue will become an exceptional addition to the region."

Any RV resort would include a wastewater treatment plan. We asked for details on that, too.

"The property will utilize the very latest in wastewater treatment facilities. Our plant will meet or exceed the standards set forth by the state and County. There will be no discharge to Lake Anna."

Many Facebook commenters were concerned about the long-term appearance of an RV resort, as in how you can the owners assure the existing Lake Anna community the RV resort would remain upscale and what does the term "upscale" mean for an RV resort?

"First and foremost our goal is to offer the very finest in guest amenities. Second, there will be standards

continued on page 25

RV Resort Update

continued from page 23

for guest accommodation that require pre-approval of units prior to taking a reservation. Management of those standards is a top priority for the property."

Some also commented on Facebook about an unacceptable increase in boat traffic should an RV resort be approved and we asked Willis about that.

"Our goal is to be a leader in the outdoor hospitality arena. We have studied dozens of world-class properties and we have taken a 'best practices' approach toward our venue. We are confident in the success of our plan"

Statements released on the RV resort cite it would create 15-20 full time jobs and 50 seasonal, full time jobs. We asked Willis to explain what those jobs would be?

"The property will be staffed by approximately a dozen full-time professional staff that are fully qualified in RV resort operations. These include the day-to-day management of the property as well as providing exceptional guest services. In addition to those positions we envision the need for seasonal staff to assist in the operation of the resort during the peak season. Many of these staff will serve in the areas of guest services and property maintenance." LKA

Lake Land Sales On The Way To Setting A New High Mark

BY LIBBY SANDRIDGE

The Lake Anna market continues to boom, however with the low inventory, sales were slightly lower in 2021 compared to 2020. 274 homes sold in 2021 compared to 308 sold in 2020. Of those sold 116 were waterfront and 158 lake access homes.

Due to low inventory in homes, land sales soared again in 2021. 295 lots sold at the lake which included 70 waterfront lots and 125 lake access lots.

New construction at the lake continues to flourish. Building materials are starting to stabilize and with the rising cost of real estate homes many are opting to build.

homes currently available range from \$495,500 to \$5,995,000. Home sales prices hit a 16 year high here at the lake and expectations are that this momentum will continue for 2022. The pandemic definitely ignited the housing market pushing many out of the cities to rural areas. With low mortgage rates and the ability to remote working has given buyers the option to move further away from their work places.

Others predict that once Corporate America begins to bring back the remote workers to the office that it could mean fewer buyers in the second home market which could impact the Lake market.

Again, keep in mind this info is based on industry predictions. Fortune online magazine reported that Frank Martel, CEO of CoreLogic website was heard into 2022 we expect some moderations in the current pattern of flight away from urban cores as the pandemic wanes."

Editor's Note: Libby Sandridge is a long time Lake Anna realtor for their home. You can contact her at 540-223-0350 or libbysandrige@comcast.net

ready, willing and able buyers are predicting interest rates to hit 4% by the end of 2022 so buyers are anxious to buy early this year.

With all that said if you have considered selling, now is definitely the time. Low inventory is your best friend and the Lake needs more inventory! We still have many

Lake Anna Gateway Project Moving Forward In Louisa

BY C.C. MCCOTTER

Land along Rt. 522 at Ware's Crossroads could be transformed as early as the fall of 2021 into what the developer is calling the "Lake Anna Gateway."

After a successful rezoning effort over the summer and fall, Trey Willis, spokesperson for the Lake Anna Gateway, LLC said his company is very close to beginning the project located at the 125 acres on either side of Rt. 613 (Mansfield Road) that also partially fronts Rt. 522 across from Dickinson's Store.

"We are currently seeking users for the property, getting close to the site plan sign that says, "You can have your business here," noted Willis, a third generation developer based in northern Virginia.

Willis explained to Life & Times the phased approach plan to the project

begins with space offered for fast food uses, a high-end gas station, urgent care and grocery store. The next phase would include a hotel. The final phase would emphasize the Gateway to Lake Anna concept with The Corner pedestrian promenade, a pavilion and meeting places; emphasizing family fun and community.

Willis shared that there were some notable proffers that he felt the community might appreciate; "We did proffer out no 'dollar' stores."

Also worth noting, wastewater from the project will not travel from the site. Several different septic fields would serve the development, and each are individually contained in phases. According to Willis, "There will not be just one big system that serves the project."

Louisa County Administrator Christian Goodwin acknowledged he and

his staff are monitoring the process of the Gateway project.

"We're currently in the preliminary review of the site plan," he told Life & Times.

He also noted the County Economic Development Department is not yet working with the developer on bringing targeted businesses to the project but was "glad to assist as the project moves along."

Mineral District Supervisor Duane Adams said of The Gateway plan: "This development has the potential to not only provide jobs and increase the County's tax base, but also to expand the shopping, dining and recreational options for residents and visitors alike.

"I am very interested and attentive to any activity that occurs there and along the Rt. 208 corridor." LKA

Rt. 208 Parcel In Spotsylvania County Under Contract For Mixed Use Development

With the community growing and businesses looking for opportunity, the race to find remaining developable land along Lake Anna's lucrative Rt. 208 continues.

The developer looking to create an RV resort at the lake and build the Gateway project at Ware's Crossroads has put a contract on 152 acres of Hairfield family land on Rt. 208 zoned for mixed use.

"We just put that great piece of property under contract," noted a representative of the Willis Companies. Trey Willis heads the third generation, local development company from northern Virginia.

Location of Hairfield parcel under contract for development and the sign along 208.

"We are happy to be welcomed into the community. The Spotsy side of the lake is underutilized and people have held onto their land for many years so we see how important it is to maintain proper development aims," Willis told Life & Times.

Lake Builder To Purchase 30 Lots In New Private Side Subdivision

Evergreene Homes will be purchasing 30 of the 54 waterfront and water access lots at the new 80-acre subdivision located on the old Chisholm Family farm on Cooling Lagoon 2 of the private side of the lake in 2022.

"All agents are welcome to contact our sales team starting in early April to learn more about the project and the waterfront and water access homesites," noted Evergreene Homes spokesman Lonnie Carter. "Potential buyers can then schedule a personal meeting to learn more about the six new home plans offered and the available homesites that will best meet their needs."

The Rock Island Landing project features gently rolling hills with scenic views and given the prior pastoral uses, will not disturb any existing wooded areas, allowing the new

Rock Island subdivision location.

homes to be built to blend well with the existing setting. The Evergreene home options range from 1,700 sq. ft. up to 7,000 sq. ft., depending on options chosen. The homes feature 2x6 wall construction that allows for an enhanced insulation

Rock Island subdivision lot.

rating and greater energy efficiency. All homes are designed with energy rated windows, which provide great natural light into the homes while opening up spectacular lake views. Luxury kitchens and hundreds of other additional choices permit buyers to

personalize each home. The waterfront homesites are an acre or more with ample shoreline. Water access lots all include a deeded, covered boat slip.

"The Evergreene Homes team truly enjoys the Lake lifestyle and has exciting plans for the future in this region. Lake Anna is quickly becoming one of the most desirable destinations in Virginia and we are thrilled to be a part of this growing community. We take great pride in our effort to exceed expectations with our home designs and the many quality construction details that are felt but not often not seen behind all the quality finishes we provide" noted Carter.

Evergreene has built over 85 homes at the lake in recent years in all three counties with many more under way in 2022. LKA
