# 1. EXECUTIVE SUMMARY

816 W Fieldcrest Road Eden, NC is a premier industrial manufacturing facility offering an exceptional value and versatility for a wide range of industrial users.

Built in 1995 with an expansion in 2009, the facility is strategically located just minutes from US Highway 311, which connects Danville, VA to Winston-Salem, NC and links to US Highway 220, a key north-south corridor through central North Carolina.

The property is equipped with numerous specialized and hard-to-replace infrastructure features, including 4MW of electrical service, steam boilers, water chillers, compressed air systems, chemical bulk storage and rail service. These built-in capabilities make the facility ideally suited for intensive manufacturing operations. With its scale, infrastructure, and strategic location, this property represents a rare and valuable industrial opportunity in the southeastern United States.
