AREA OVERVIEW

Agoura Hills, nestled in the scenic Santa Monica Mountains, offers an affluent suburban lifestyle with natural beauty, up-scale housing, strong schools, and a diverse job market, all within easy reach of the Greater Los Angeles area.

Agoura Hills is a picturesque city positioned on the eastern side of the scenic Conejo Valley in Southern California. Just 38 miles west of Downtown Los Angeles, Agoura Hills spans roughly eight square miles and has a population in excess of 20,500 people. It is situated in the foothills of the Santa Monica Mountains with other cities of the Conejo Valley to the west and Calabasas and the San Fernando Valley to the east. Agoura Hills offers a unique blend of suburban tranquility and easy access to the vibrant culture and amenities of nearby urban centers.

Agoura Hills, most known for its strong residential neighborhoods and sense of community, also boasts a diverse and growing job market. The city sits ideally positioned between major employment centers in Thousand Oaks to the west and Calabasas and the San Fernando Valley to the east. Amgen is the major employer of the Conejo Valley, employing more than 6,700 people, almost three times larger than the next biggest employer. Because Agoura Hills is often a pass through for commuter traffic, the city has a thriving retail sector, with shopping centers and businesses that provide jobs in retail management, sales, and customer service. Additionally, the city's restaurants, cafes, and hospitality establishments create employment opportunities in the food service and hospitality industry.

Because of the Santa Monica mountains to its north and south, Agoura Hills commercial trade areas are oriented around the 101 Freeway, the primary highway connecting Los Angeles and Ventura Counties to the west and east, respectively. This has led to considerable supply constraints in the market and a lack of new construction and supply.

The subject property benefits from a dense population in the immediate area, with over 7,600 people within one mile of the subject property, 37,600 people within three miles, and 71,000 people within five miles. The immediate submarket boasts an average household income within one, three, and five miles is \$139,000, \$168,000, and \$166,000, respectively, with a median income within one, three, and five miles \$112,000, \$143,000, and \$138,000, respectively. There are over 7,600 households within one mile of the subject property, and over 13,800 households within three miles. The median home value in the immediate area is \$759,372.
