

FOR SALE: THE ARNOLD GREGORY COMPLEX

An aerial photograph of the Arnold Gregory Complex, a large, multi-story brick building with a flat roof and several wings. The building is surrounded by a parking lot with several cars. In the background, there are green trees, a blue swimming pool, and a large, open field. The sky is blue with some clouds.

Benchmark Realty Advisors is pleased to present The Arnold Gregory Complex located in Albion, NY. Built as a hospital in 1957 The Arnold Gregory Complex offers approximately 60,000 SF of medical/office space on two floors with ample on-site parking. The property is currently used as a multi-tenant office building and it sits at approximately 75% occupancy with a number of smaller, short-term office/medical tenants. A new owner of this facility could continue to run it as a commercial investment property or there is potential to convert to residential. The design of the facility with ample natural light on either side of a central corridor, combined with the "PC" zoning and flexible nature of the in-place leases make this a very appealing project for an adaptive reuse residential development.
