Property Summary

The Offer

We are offering this 9,840± Sq. Ft. free-standing, one-story, brick veneer Office Building with excellent, retail-type visibility to 23,300± cars per day on Canton Road, For Sale or For Lease. The building is located on the east side of Canton Rd, offering easy, full ingress & egress via a center turn lane. The Office Building sits on a generous 3.17± acre lot with approximately 2± acres of currently vacant/developed land for future development/expansion. Owners are willing to sell the Office Building and vacant, developed land in two (2) separate transactions.

The Office Building

The Office Building was built in 2010 and since that date has served as the headquarters of Heath & Lineback Engineers Inc. The building is currently vacant and features a well-appointed layout including a reception office, six standard offices, two large corner executive offices, and four offices with glass walls. Additional spaces include a conference room, printing room, break room, plotter room with IT/server closet, a mud room, storage room, male and female restrooms, a private shower, and a large open area with 30 cubicle workstations, expandable to 43 within the existing cubicle footprints.

This building can be configured to meet the needs of various businesses, including but not limited to medical offices, veterinary clinics, childcare centers, and professional office uses. Other retail uses, which are consistent with the Future Land Use Map, but would require a rezoning with Cobb County, include banks, restaurants, and grocery stores.

The Canton Road corridor has fiber connection options up to 2 GB from Comcast and 1 GB from AT&T. The subject property used both; a main connection and a rollover connection. The server room is wired for separate phone and data connections throughout the building using CAT5E cable - all offices have connections for both.

The property features a standalone Mitsubishi AC unit (5 years left on 10-year warranty) with controls located in the server room. The building features electronic lock for quick access. A separate "bunker" used for data backup and server redundancy with portable AC unit for bunker ventilation is located outside the main building with secured entry, is wired for electrical, with multiple data cables connecting to server room.

The property offers 50± parking spaces (parking ratio of 5.08/1,000 Sq. Ft).

The Site

In 2010, the site was planned and zoning approved for the addition of up to 16,600± sf of additional buildings arranged generally around the site perimeter with sanitary sewer and stormwater management properly designed for the build out condition including the provision of the detention pond in the NE quadrant of the site. The planning considered the retention of a notable 44-inch red oak adjacent to the building near the road and a 37-inch water oak on the NRC zoned portion.

Location

The property is located in Marietta, Georgia along the heavily traveled Canton Road corridor, a primary commercial artery connecting Marietta to Woodstock/Cherokee County, and access to I-75/I-575 via I-75 Exit 266 located approximately one mile to the south. The surrounding area features a strong mix of established retail, medical, office, flex office/warehouse, and residential uses. The property is situated approximately 3.5 miles northeast of Wellstar Kennestone Regional Medical Center, one of the top-ranked hospitals in Georgia and a major regional employment hub.
