OBERLIN COMMONS...UNIQUELY UNCOMMON

Oberlin Commons gives its residents something so often missing in modern developments: a sense of neighborhood, a sense of community, a sense of home.

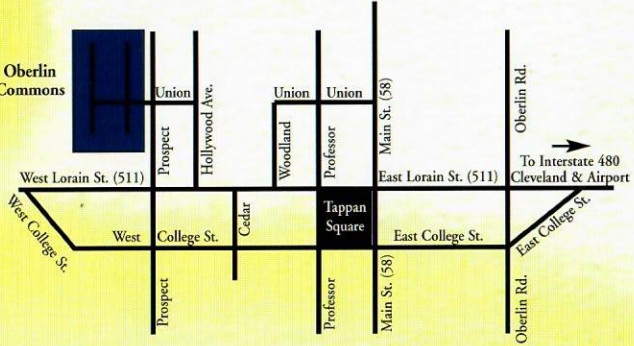

The Common areas are where you go when you need a large play space. They are close enough to be your backyard, but maintained by the Association.

The development has been kept small for a feeling of closeness and privacy. The narrower streets naturally tend to keep traffic slower and safer. The lack of through traffic makes for a quieter area as well.

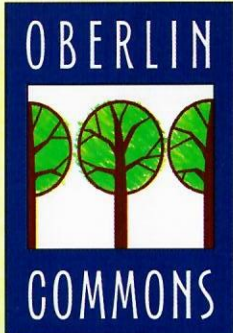

With its quiet, safe streets, abundant mature trees, and common areas, Oberlin Commons is the neighborhood that will quickly become your home.

- The lots are a wonderfully practical size. Plenty of room for family activities and space to play—but small enough so maintenance doesn't consume an entire weekend.

Oberlin Commons is located just four blocks west of the square and one block north of West Lorain St. (Route 511). From the light at Prospect, go north to Union St. and turn left.
