# Cleveland Microblade

Alex has been in the industry of beauty for the past ten years. She opened Sinistra Hair Lounge with her business partner Hannah in 2014. After being intrigued by learning of this new technique, she added microblading to her repertoire in early 2017. She thrives off detail-oriented work and is a perfectionist when it comes to symmetry and shape. Above all else, keeping the brows as natural looking as possible is her ultimate goal.
