THE LOCATION

The City of Hillsboro has a decades-long history of providing growing companies with land, infrastructure, workforce, and economic incentives. These tools are designed to attract and retain some of Oregon's most significant employers and their clients, suppliers, and customers. In addition, HCP is located within the Hillsboro Enterprise Zone Program, which offers substantial tax abatement for eligible businesses with a relatively low bar for participation.

Power, water, and data infrastructure within the North Hillsboro Industrial Area provides a unique combination unmatched within the Portland area and beyond. The historically strong workforce already established in the area is growing with the help of significant new residential projects on the south end of Hillsboro and a growing amenity within the city's core area.

In Oregon, corporate business tax accounts for less than 3.5 percent of the gross state product, compared with 4.7 percent for California and 4.9 percent for Texas. Businesses will find that Oregon has designed their tax codes to attract and retain companies. As a result, Oregon's state tax structures rank in the top fifth of the nation for having a business-friendly tax structure.
