Site Description, Details & Area Information

This 18.46-acre site, previously known as the Prairie House, is situated in a natural, protected and private setting with heavy woods, mature trees and Sugar Run stream meandering along the west edge of the Property.

The former Prairie House, started as an antiques business that morphed into home furnishings, décor, unique accessories, collectibles, crafts and gift items. Over time, the original house and barns were all converted into retail spaces. They were famous for their annual Christmas open houses with several dozen different decorated trees.

The Property is located within the heart of <u>New Albany</u> in northeast Franklin County, one of the most affluent municipalities in Central Ohio, and 0.5 miles west of (a short walk to) <u>Rose Run Park</u>, <u>New Albany Market Square</u> and <u>Village Center</u>, a walkable area with restaurants, retail, offices, library, post office, <u>McCoy Center</u>, <u>Heit Center</u> and the Learning Campus - <u>New Albany Plain Local School High School</u>, <u>Middle School</u>, <u>Intermediate School and Primary School Campus</u>; and just north of the master-planned <u>New Albany Country Club</u> communities; and south of <u>State Route 161 Expressway</u>; and east of <u>Hamilton Rd</u>.

The Property is surrounded by single family residential subdivisions including Hampstead Village immediately west and immediately east, Pickett Place on the southside of East Dublin Granville Rd and the New Albany Country Club community to the south/southeast.

The <u>Property</u> has approximately 640' of frontage along the north side of East Dublin Granville Rd; the eastern boundary extends to a depth more than 1,600' and the western boundary extends to a depth more than 850' and continues to travel north along Sugar Run stream to the same depth as on the eastern boundary; with the north boundary being more than 250'. The site is generally level from the frontage toward the rear of the site where elevation decreases down to Sugar Run stream and has all public utilities including AEP, Columbia Gas, municipal water and sanitary sewer.

New Albany is a connected community with an interconnected network of streets, paths and leisure trails, with more than 55 miles of leisure trails, and a paved leisure/walking/bike trail along site Property's frontage along E. Dublin Granville Rd.

The site is improved with a two-story single-family house and several other buildings and barns that were used in a retail capacity.

Building Structure	Square <u>Feet</u>	<u>Garage</u>	Year Built Description

Site Description, Details & Area Information (continued)

New Albany is rooted in four pillars: lifelong learning, health and wellness, arts and culture and environment and sustainability.

High design standards help foster and nurture quality of life and help protect the character that defines New Albany.

Residential Districts feature high quality Georgian and farmstead architecture with an emphasis on lot arrangement, interconnectivity and walkability and well as lush landscaping and embedded green spaces, all defining characteristics of New Albany's success.

Mid-Ohio Regional Planning Commission (MORPC) projects that by 2040, the population of age 65 and older will grow by 25% with increased demand for different housing types such as ones that are highly amenitized, compact, walkable with close proximity to restaurants, retail, entertainment and parks, targeting young professionals, empty nesters and single people living alone.

Recommendations include strategies that can provide housing for al life stages so that residents can age-in-place and should be developed in areas that are easily walkable to services and amenities.

New Albany-Plain Local School District (NAPLSD). The school buildings area all centrally located on the 200- acre Learning Campus, located in the Village Center and bordered by a nature preserve. The District consistently ranks among the best in the stat and earns a 5-star rating across all components – one of only 12 districts in the state to do so.

New Albany has experienced significant growth in geography, population and employment and consistently adds about 100 new housing units each year.

Population: 11,389 - Employee Population: 24,000 - Households: 3,743

City of New Albany Median Household Income: \$200,001 - 91.5% Homeownership rate

Near the 9,000-acre New Albany Business with 24,000 employees, 26 million square feet of development and \$28 billion in private investments

Average Commute Time: 24.6 minutes

<u>Distance to Intel Plant</u> - 5.8 miles / <u>Driving Route</u> - 7.9 miles

Strong Demographics: Average HH Income: 1-mi \$234,930, 3-mi \$158,947, 5-mi \$15,2022, 10-mi \$117,765.

CURRENT SITE ZONING

Current Zoning: Chapter 1135 - R-2 Low-Density Single-Family Residential District

Permits all uses in Chapter 1131 – R-1 Single-Family Residential District

Uses: Single-family detached dwellings, publicly owned parks, playgrounds

and open space, religious exercise facilities and related uses.

Conditional Uses: Golf courses, country clubs, privately owned parks and recreation areas,

public schools, Residential model homes, temporary lot sales offices

Chapter 1133.05 Development Standards: The standards for the arrangement and development of land and buildings in the R-2, R-3 and R-4 Districts shall be according to the following schedule:

District	Min. Lot Size (sq. ft.)	Min. Lot Width (ft.)	Min. Lot Width on Curving Street (ft.)	Min. Front Yard (ft.)	Min. Side Yard (ft.)	Min. Rear Yard Depth (ft.)	Max. Building Height (ft.)	Max. % of Lot Coverage
R-2	20,000	100	60	30	10	30	45	25
R-3	15,000	90	50	30	10	30	45	30
R-4	10,400	80	45	30	10	30	45	30

Note: All lots shall have frontage on a publicly dedicated and improved street or highway. Lot width shall be measured at the point of intersection of the lot with said street or highway.

The current R-2 Zoning District permits single-family residential lots with a minimum lot size of 20,000 square feet with a minimum lot width of 100' (minimum lot size of 100' x 200' which is 20,000 SF, or 0.4591 acre lots).

If rezoned to I-PUD, and 100% age restricted, its would be possible to get 55 residential lots based on 18.46 acres X 3 lots to the acre.

The site is ideal for an estate lot or several estate lots, custom homes and custom age restricted at up to 3 homes per acre (or up to 2.4 home per acre if 80% age restricted).

All potential buyers must take appropriate measures to verify all of the information set forth herein.

ZONING

Additional References:

<u>Code of Ordinances</u> <u>New Albany Zoning Website</u>

Chapter 1159 - PUD Planned Unit Development District

"Infill Planned Unit Development (I-PUD)." An "I-PUD" means an area of land consisting of no more than one hundred (100) contiguous acres in which one use or a variety of uses may be accommodated in a pre-planned environment under more flexible standards than those restrictions that would normally apply under this Zoning Code. The process in an I-PUD shall consist of a Preliminary Development Plan which shall constitute the act of zoning; and a Final Development Plan which shall consist of a detailed development plan for all, a portion of the area, or subareas within the Preliminary Development Plan.

If contemplating a rezoning to I-PUD, a residential density of 1 dwelling unit (du) per acre is required for single-family residential and a density of 3 du per acre for 100% age restricted housing is the residential density policy listed in the Engage New Albany Strategic Plan.

Chapter 1155 - Flood Damage Reduction

Chapter 1155.04 - Use and Development Standards for Flood Hazard Reduction

Title Five Additional Zoning Requirements

<u>Chapter 1165 – General Development Standards</u>

Chapter 1165.10 - Parkland and Open Space Dedication Requirements

Requires 2,400 square feet of public parkland to be dedicated for every proposed dwelling unit. In addition to this, 20% of the gross acreage of the site, pre-development, is required to be dedicated as common open space. These are the general standards that apply to all new residential development in New Albany with the exception of a specific mixed use development site called the hamlet.

Chapter 1171 - Landscaping

Engage New Albany Strategic Plan 2020 (Amended August 2022)

<u>Engage New Albany Strategic Plan 2020 (Amended August 2022)</u> is the key policy guide for land use and to prioritize community needs and to provide guidance for private development.

New Albany Land Uses: The <u>future land use map</u> is one of the primary reference documents of the strategic plan and highlights the desired future land use patterns for the city. The future land use map and strategic plan provide the city's council, boards, commissions and staff with strong guidance when considering development proposals, rezonings, etc. Deviations from the land use map should be taken into consideration against the strategic plan's goals, objectives and recommendations.

The Plan indicates that there is interest in adding housing types to help New Albany become a life-span community which includes housing for empty nesters.

<u>Future Land Use Plan</u> – The following standards are prerequisites for all development proposals in New Albany:

- Development should meet setback recommendations contained in strategic plan.
- Streets must be public and not gated. Cul-de-sacs are strongly discouraged.
- Parks and open spaces should be provided, publicly dedicated and meet the quantity requirements established in the city's subdivision regulations (i.e. 20% gross open space and 2,400 sf of parkland dedication for each lot).
- The <u>New Albany Design Guidelines & Requirements</u> for residential development must be met.
- Quality streetscape elements, including an amenity zone, street trees, and sidewalks or leisure trails, and should be provided on both sides of all public streets.
- Homes should front streets, parks and open spaces.
- A residential density of 1 dwelling unit (du) per acre is required for single-family residential and a density of 3 du per acre for age restricted housing.
 - 3 du/acre is only acceptable if 100% age restricted. Otherwise, the federal regulations and criteria for subdivisions to qualify as age-restricted must be accounted for when calculating density (i.e. 80% age restricted and 20% non-age restricted). Age restriction must be recorded as a deed restriction and included as a requirement in the subdivision's zoning text.

Design Guidelines Section 5 - Residential Outside Village Center

Design Guidelines Section 7 - Isolated Sites

Engage New Albany Strategic Plan 2020 (Amended August 2022) Development Standards

The principles of good residential subdivision design and distinctive features should be emulated in future development which generally include these standards:

- Organically shaped stormwater management ponds and areas should be incorporated into the overall design as natural features and assets to the community.
- A hierarchy of open spaces is encouraged. Each development should have at least one open space located near the center of development. Typically, neighborhood parks range from a half-acre to 5 acres. Multiple greens may be necessary in large developments to provide centrally located greens.
- All or adequate amounts of open space and parkland is strongly encouraged to be provided on-site.
- Houses should front onto public open spaces and never back onto public parks or roads.
- Rear or side-loaded garages are encouraged. When a garage faces the street, the front facade of the garage should be set back from the front facade of the house.
- Any proposed residential development outside of the Village Center shall have a base density of 1 dwelling unit per gross acre to preserve and protect the community's natural resources and support the overall land conservation goals of the community. A transfer of residential density can be used to achieve a gross density of 1 dwelling unit per acre.
- Private streets are at odds with many of the community's planning principals, such as
 interconnectivity, a hierarchy of street typologies, and a connected community. Therefore,
 the streets within residential developments must be public.
- In considering the expansion of residential uses into Licking County, the city will take into consideration factors such as community impacts, financial implications, the adequate delivery of services, and the impact on school districts
