LANDMARK CENTER

THE OLD MARKET

Innovative restaurants, original steakhouses, local pubs, quaint cafes and jazz clubs make the historic Old Market a great stop when visiting Omaha. Back in the 1880s, Omaha was railroad central and served as the gateway from the settled East to the wild, wide-open West.

The Old Market and its red-brick warehouses and cobblestone streets were the epicenter of activity, bustling with produce dealers, buyers and traders. All of that changed in the late 1950s when the area was threatened with building condemnation. But Sam Mercer, the son of a prominent physician and landowner, wanted to renovate the old buildings for new uses. At the time, Mercer's idea was said to be foolish; today he is considered a visionary. See a true merging of old and new, like a brew pub inside the 1903 firehouse and a contemporary art center inside a former grocery warehouse.

An eclectic neighborhood with a rich history of arts and culture. Featuring over 45 restaurants and drinking establishments, working artists and galleries, and truly unique shops!

This historic area has been transformed into a lively shopping, dining and nightlife destination. Lively this 20-square block area is uniquely Omaha and filled with nostalgia and innovation. The area is on the National Register of Historic Places as a historic district. Distinct features to this day include The Passageway, V Mertz, La Buvette, and The Boiler Room.

THE RIVERFRONT REVITALIZATION PROJECT

Community leaders from Omaha and Council Bluffs, Iowa are working together with government officials and stakeholders to improve both sides of the Missouri River. This work will define an achievable vision that attracts residents, businesses and visitors to the area while supporting growth and enhancing connectivity. A national team of experts, led by OJB Landscape Architecture, has developed a master plan for areas in and around Gene Leahy Mall, Heartland of America Park and Lewis and Clark Landing in Omaha.

To unify community through a thoughtful,
amenity-rich open space anchored by the
Missouri Riverfront.

Improvements for each component of The RiverFront were carefully selected and refined by experts, along with involvement from the Omaha and Council Bluffs community. Input from the public has been critical throughout planning and development of the project. Gene Leahy Mall was raised to street level and a green lawn was created that allows for activities and entertainment. Additional improvements made to Gene Leahy Mall include a sculpture garden, children's play area, dog park, performance pavilion, interactive water features and space for private development such as restaurants, cafes and other mixed use buildings.
