What sets us apart

As invested as you are.

We think like owners.

That's because we're all company owners at Merus. This is a unique and powerful distinction because it deeply influences our culture and operations. Every team member demonstrates a deeper sense of ownership and accountability—in both their daily tasks and the collective success of the organization.

Every discipline. One team.

As an integrated team, we have all the right experts in one room. We share the same goals. We solve complex problems faster. As a result, projects go smoother. While most developers hire a general contractor and an architect, we have it all in-house.

130 years of excellence.

We've been in the industry for a long time and have a long reputation built on trust. But we've never stood still. We've constantly adapted and improved our approach and we're always finding ways to be even better.
