## Current 961 Matley Lane Tenants

Hanger Clinic is the world's largest provider of comprehensive, patient-centered orthotics (braces, cranial helmets) and prosthetics (artificial limbs). With over 900 locations Hanger operates out of an extensive national footprint with commitment to ongoing clinician training, integrated services (inpatient/outpatient), focus on patient goals, and a blend of technology with compassionate, family-like care. Hanger has been a tenant for over 10 years.

The Children's Cabinet in Nevada is a non-profit focused on keeping families together since 1985. The non-profit serves more than 15,000 families annually, offering free, diverse programs like parenting classes, childcare subsidies, and support for providers, serving youth with services for families and early childhood development, funded by grants and community support.

Pacific Medical is a leading medical equipment distributor in orthopedics, and sports medicine supplying crucial recovery devices and surgical equipment. The company is known for its strong industry ties, innovation, and surgical training labs, serving clinics and patients directly. Pacific Medical is a partner and distributor of products from leading brands like Stryker. Pacific Medical has been a tenant for almost 20 years.

Reno Media Group founded in 1982 specializes in integrating radio and digital marketing. They operate nine radio stations that serve as strong marketing vehicles in Northern Nevada making it one of the most successful broadcast entities in the region. RMG has been a tenant for 20 years.

SWCA is a global environmental consulting firm known for its innovative approaches and dedication to sustainability. They offer comprehensive services related to environmental planning, permitting, and compliance. SWCA has been 100% employee-owned since 2000. The company emphasizes a strong culture of employee engagement and job satisfaction, boasting a client satisfaction rating of 98.6%. In 2024, SWCA raised \$235,000 to support community nonprofits, highlighting their commitment to giving back to the regions they serve.

DoorDash operates around 200 Dash Mart locations in the US, Canada, Australia, and New Zealand. The Dash Mart located at Matley Properties acts as one of the first of these on-demand fulfillment centers for groceries, snacks, and essentials. Products are ordered via the Doordash App offering fast delivery from a brick-and-mortar warehouse to customers.

# Local Area Overview

The Greater Reno-Tahoe's business and economic climate is experiencing a major boom and the ramifications are far reaching! As the announcements of large and recognizable companies that are moving to the area are publicized, businesses, investors and developers from all over the country are rushing to jump on the bandwagon. Companies are finding that the ease of doing business, coupled with favorable taxes and incentives, is creating an unparalleled motivation for business leaders to focus on Northern Nevada. In fact, Nevada was ranked number 1 for inbound moves for 2018 according to Atlas Van Lines study. With the area including major cities such as Reno, Sparks, Carson City, and Incline Village, there is plenty of room for expansion. With the benefits of Nevada's low tax on businesses - and a satisfying quality of life, it's a wonder why a business or developer would choose anywhere else. The region's optimal location to San Francisco, Portland, Salt Lake City, Las Vegas, and Los Angeles all within a day's drive is just another added benefit.

With Nevada having the third most business-friendly tax structures in the country, it opened up many possibilities for out-of-state companies

to locate facilities here, including Google, Tesla, Switch, Apple, Blockchain and most recent newcomer, New Deantronics. New Deantronics recently announced plans to break ground on a 20,000 square foot facility for research/development and manufacturing. The company estimates that they will invest more than \$40 million and generate over 200 jobs for the area. Blockchain recently purchased 67,125 acres in the Tahoe Reno Industrial Center for their new corporate headquarters and software design research center. Google also purchased 1,210 acres of land in TRIC, making both of them neighbors with Tesla and Switch. Tesla Motors also invested in Nevada and is currently building the world's largest lithium ion battery factory that is scheduled to have an 18 million square foot footprint, with 6 million square feet already built. This \$10 billion lithium battery plant is projected to employ 10,000 people and 16,000 indirect jobs within the next few years. In addition, the Las Vegas based tech company, Switch, is investing \$1 billion in a 7.2 million square foot data center. The first building in the Switch Campus recently opened its doors and became the world's largest single data center, measuring 1.3 million square feet.

Finally, Apple also chose Reno to invest over \$2 billion for their massive iCloud data facility. They will also be building a 27,000 square foot shipping warehouse in downtown Reno. Apple is expected to generate 100 employees and 300 construction jobs from the warehouse, on top of the current 717 established employees in Nevada.

In addition to the larger companies moving to Reno, many manufacturers have already established their sites in Northern Nevada. Amazon moved one of their distribution warehouses into a 680,000 square foot e-commerce, high clearance building that employs 600 associates. While Amazon has become established in Reno, the pioneer of bringing tech companies to Northern Nevada is Microsoft. Microsoft moved its licensing office here in 1997 and is one of the only three Microsoft Regional Operation Centers in the world. With companies making the decision to move their operations into friendlier tax states becoming more frequent, Northern Nevada has become a hot spot for tech companies looking to expand. To learn more on the area, you can visit [WhyReno.org](http://WhyReno.org).
