Lake Oconee

NEW! Lake Country Village

44

Harmony Crossing is situated along Lake Oconee Parkway, also known as Route 44, halfway between Eatonton and Greensboro. It is surrounded by a population that includes retirees, second-home owners, and families, creating a consistent demand for high-quality, accessible healthcare services. It is situated directly across from the new Lake Country Village, a sprawling mixed-use development with plans for a hotel, conference center, retail shops, restaurants and single-family homes currently underway.

Combined with ongoing residential growth and a vibrant year-round community, Harmony Crossing is a great location for medical professionals looking to expand or establish a practice in a stable and underserved market.

Before the Civil War, Eatonton thrived thanks to its rich farmland, but the region has diversified with the growth of mills and manufacturing facilities that support the broader southeastern economy. The creation of Lake Oconee in 1979 introduced a new era of development. Covering roughly 19,050 acres and offering more than 374 miles of shoreline, Lake Oconee has become a sought-after destination for both full-time residents and seasonal visitors seeking an active, outdoors-oriented lifestyle.

Despite the area's steady population growth and increasing demand, healthcare specialties have been slow to follow—creating a significant opportunity for medical providers. In particular, specialists equipped to serve an aging population, such as cardiologists, orthopedists, neurologists, and geriatric care providers, are in high demand.
