## THE AREA

Santa Maria, located on California's Central Coast in Santa Barbara County, is a growing city of over 110,000 residents known for its, agriculture (especially strawberries), and signature Santa Maria-style barbecue. As the largest city in the county, it offers a diverse economy with strong aerospace, energy, and, military sectors near Vandenberg Space Force Base, paired with affordable coastal living.

## THE MARKET

Although agriculture remains a major industry with many sophisticated infrastructure expansions, Santa Maria enjoys an expanding economy based on a healthy combination of commercial and manufacturing development, education, oil production, the local public airport, and nearby Vandenberg Space Force Base.

The agricultural areas surrounding the city are some of the most productive in California, with primary crops including strawberries, wine grapes, celery, lettuce, peas, squash, cauliflower, spinach, broccoli and beans. Many cattle ranchers also call the Santa Maria Valley home.

The Santa Maria retail market is a growing hub on the Central Coast, driven by major developments like the Enos Ranch West center and the revitalized Santa Maria Town Center mall. As a top industry in the city, retail features a mix of national chains (Macy's, Aldi) and local businesses.

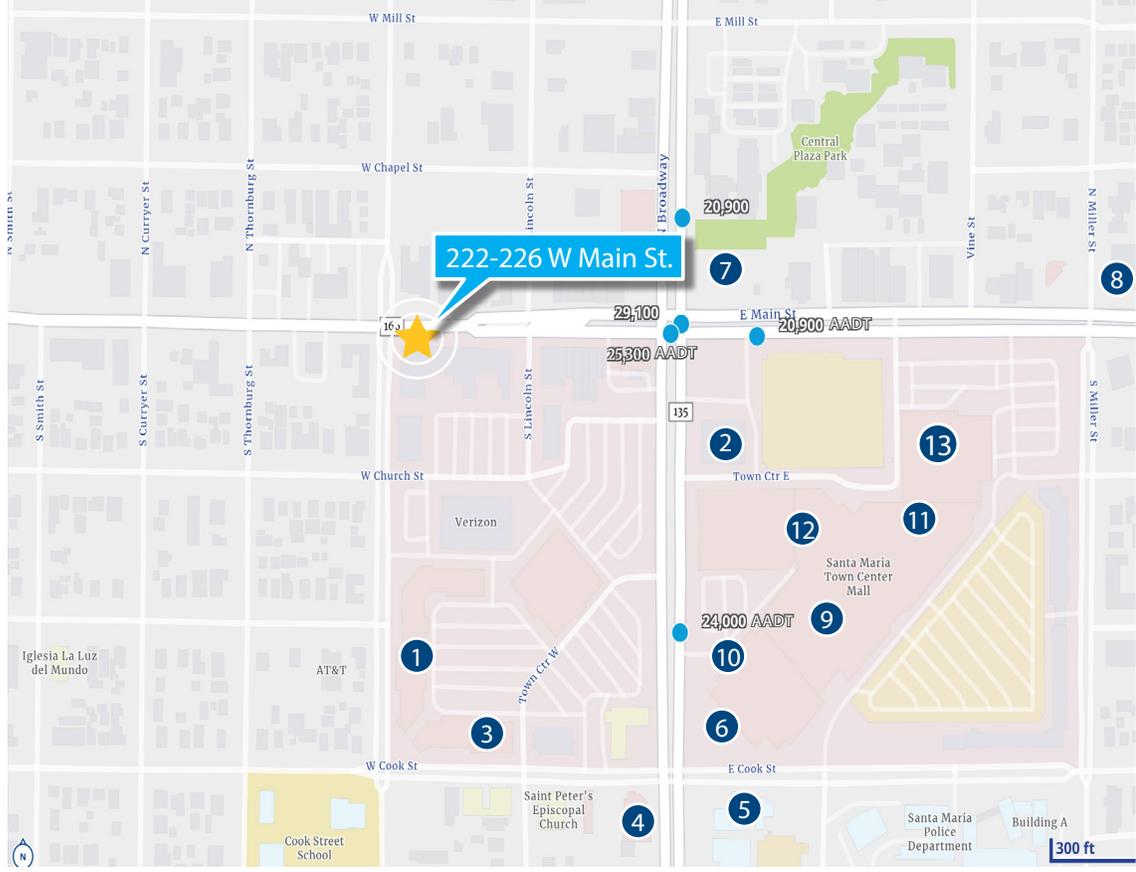

## THE POPULATION

The multicultural demographic is a valuable asset for businesses looking to tap into a wide range of markets. The City's population is characterized by a youthful energy, with a median age that is lower than the national average, contributing to a vibrant labor pool.
