PROPERTY OVERVIEW

185.38 Acre mixed use development available along US-23, south of Thompson Road in Fenton, Michigan. The site provides over 3,000 feet of frontage on US-23. All utilities will be available 2026 (water is currently in place, sewer coming early 2026). Existing PUD in place. Fenton Township is open to amending the PUD for new proposed developments. Potential uses include retail, medical, multi-family, single family, senior living, etc. (see map on page 5 for use locations). Surrounding businesses include McDonalds, BP Gas Station, Self Storage and more. Thompson Road improvement estimated timeline is 2027 (see pages 12-13). 28 Acres also available adjacent to this site for potential assemblage.

PRICING

+/-134 Acres Single or Multi-Family Residential - \$52,500 Per Acre

+/-10 Acres Senior Living Land - \$100,000 Per Acre

+/-41 Acres Commercial – Contact Randy Thomas 248-891-5050

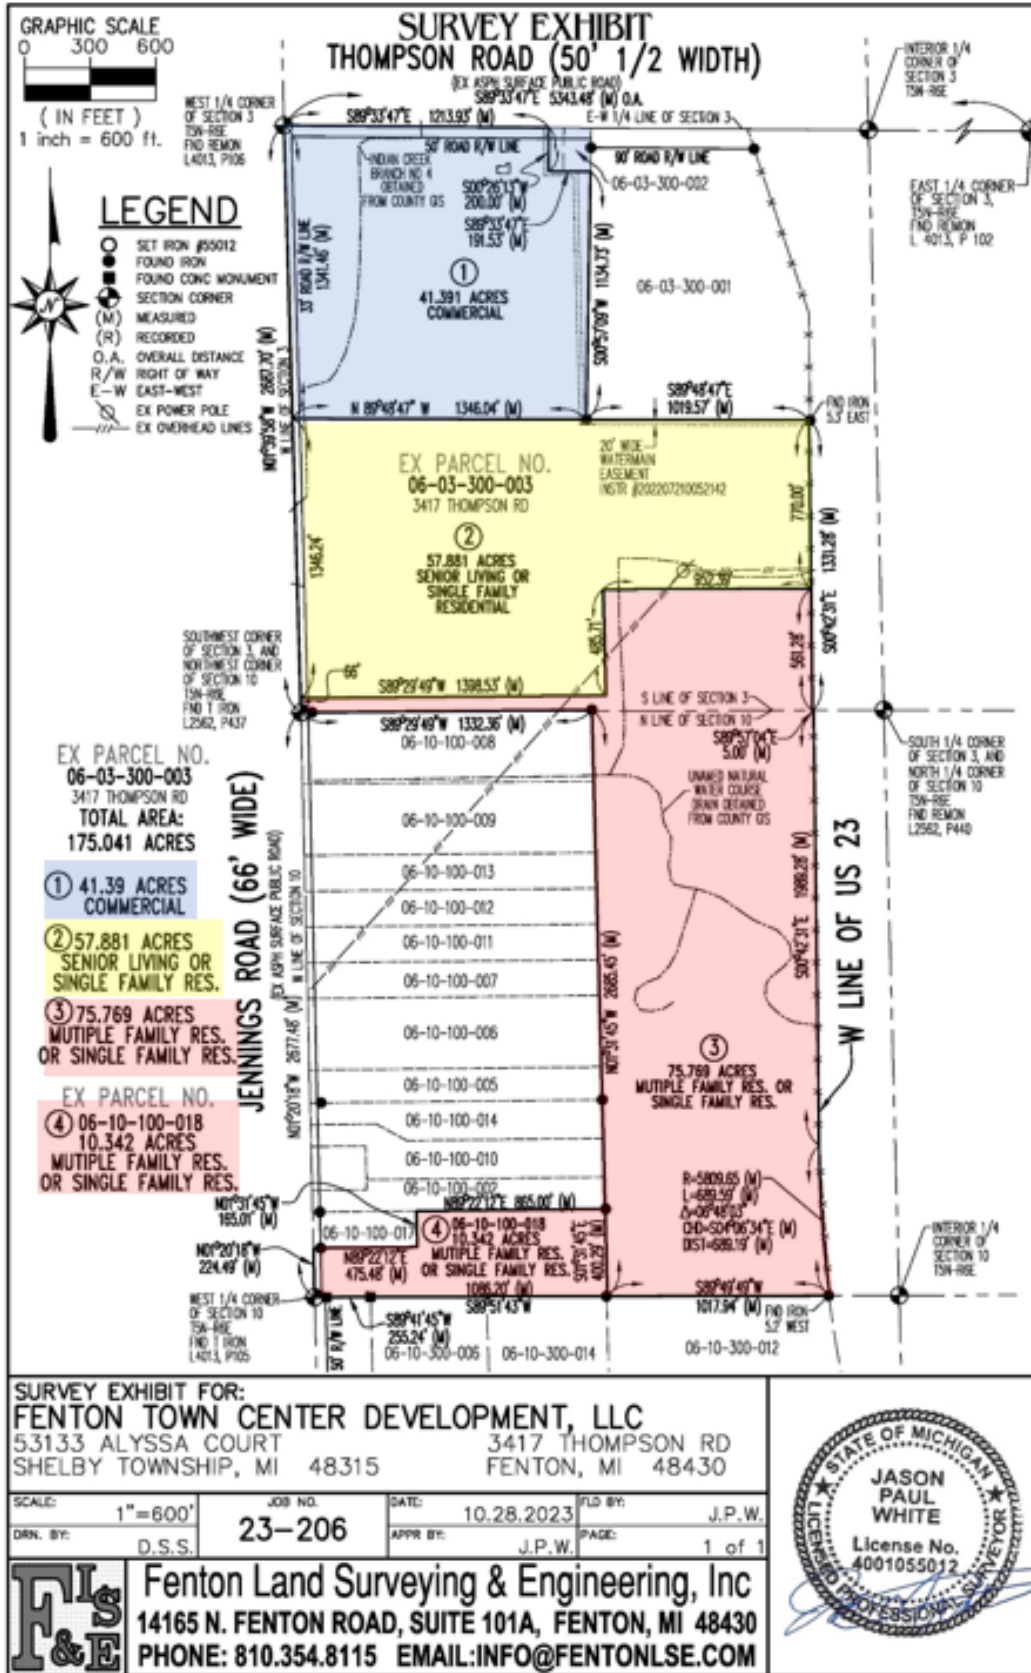

OFFERING SUMMARY	
Total Land Size:	185.38 Acres
Zoning:	PUD
Property Taxes:	+/- \$25,000
Utilities:	Water available, sewer 2026
School District:	Lake Fenton Schools

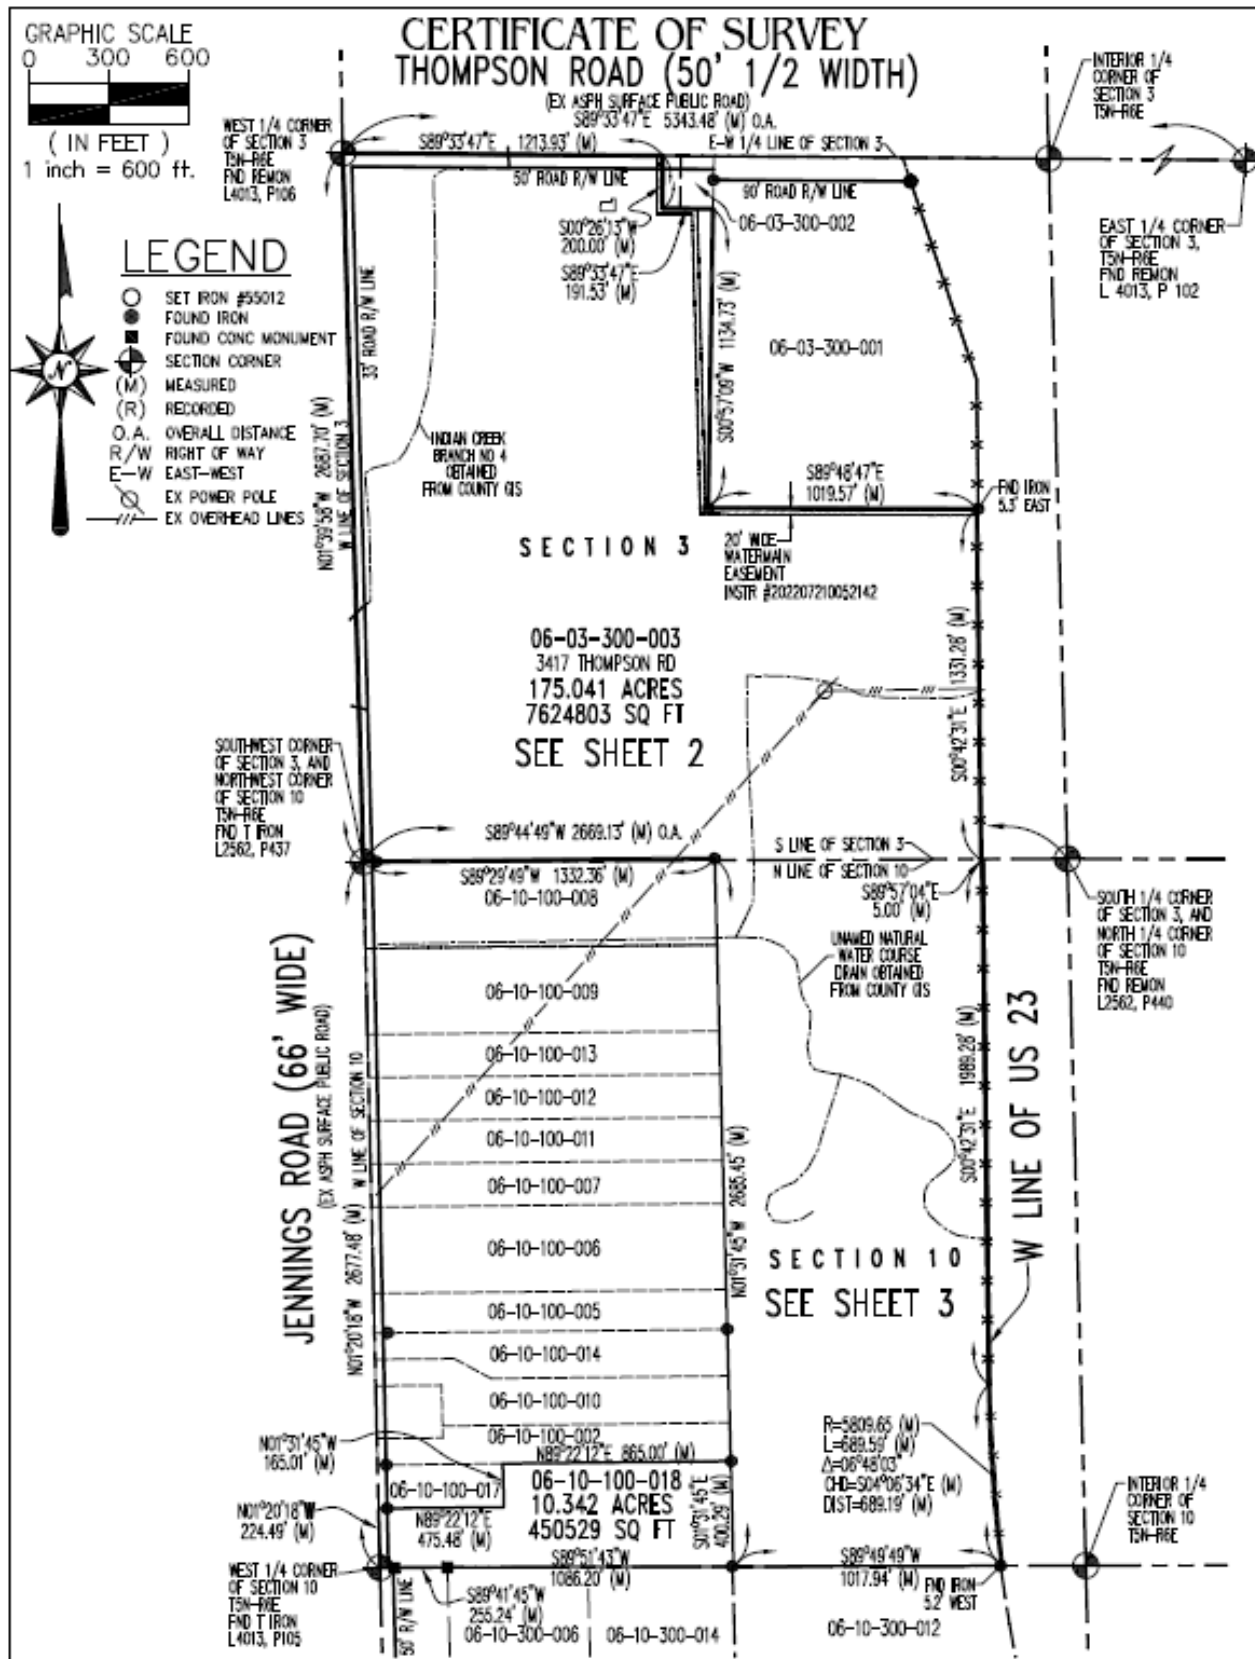

PROPERTY HIGHLIGHTS

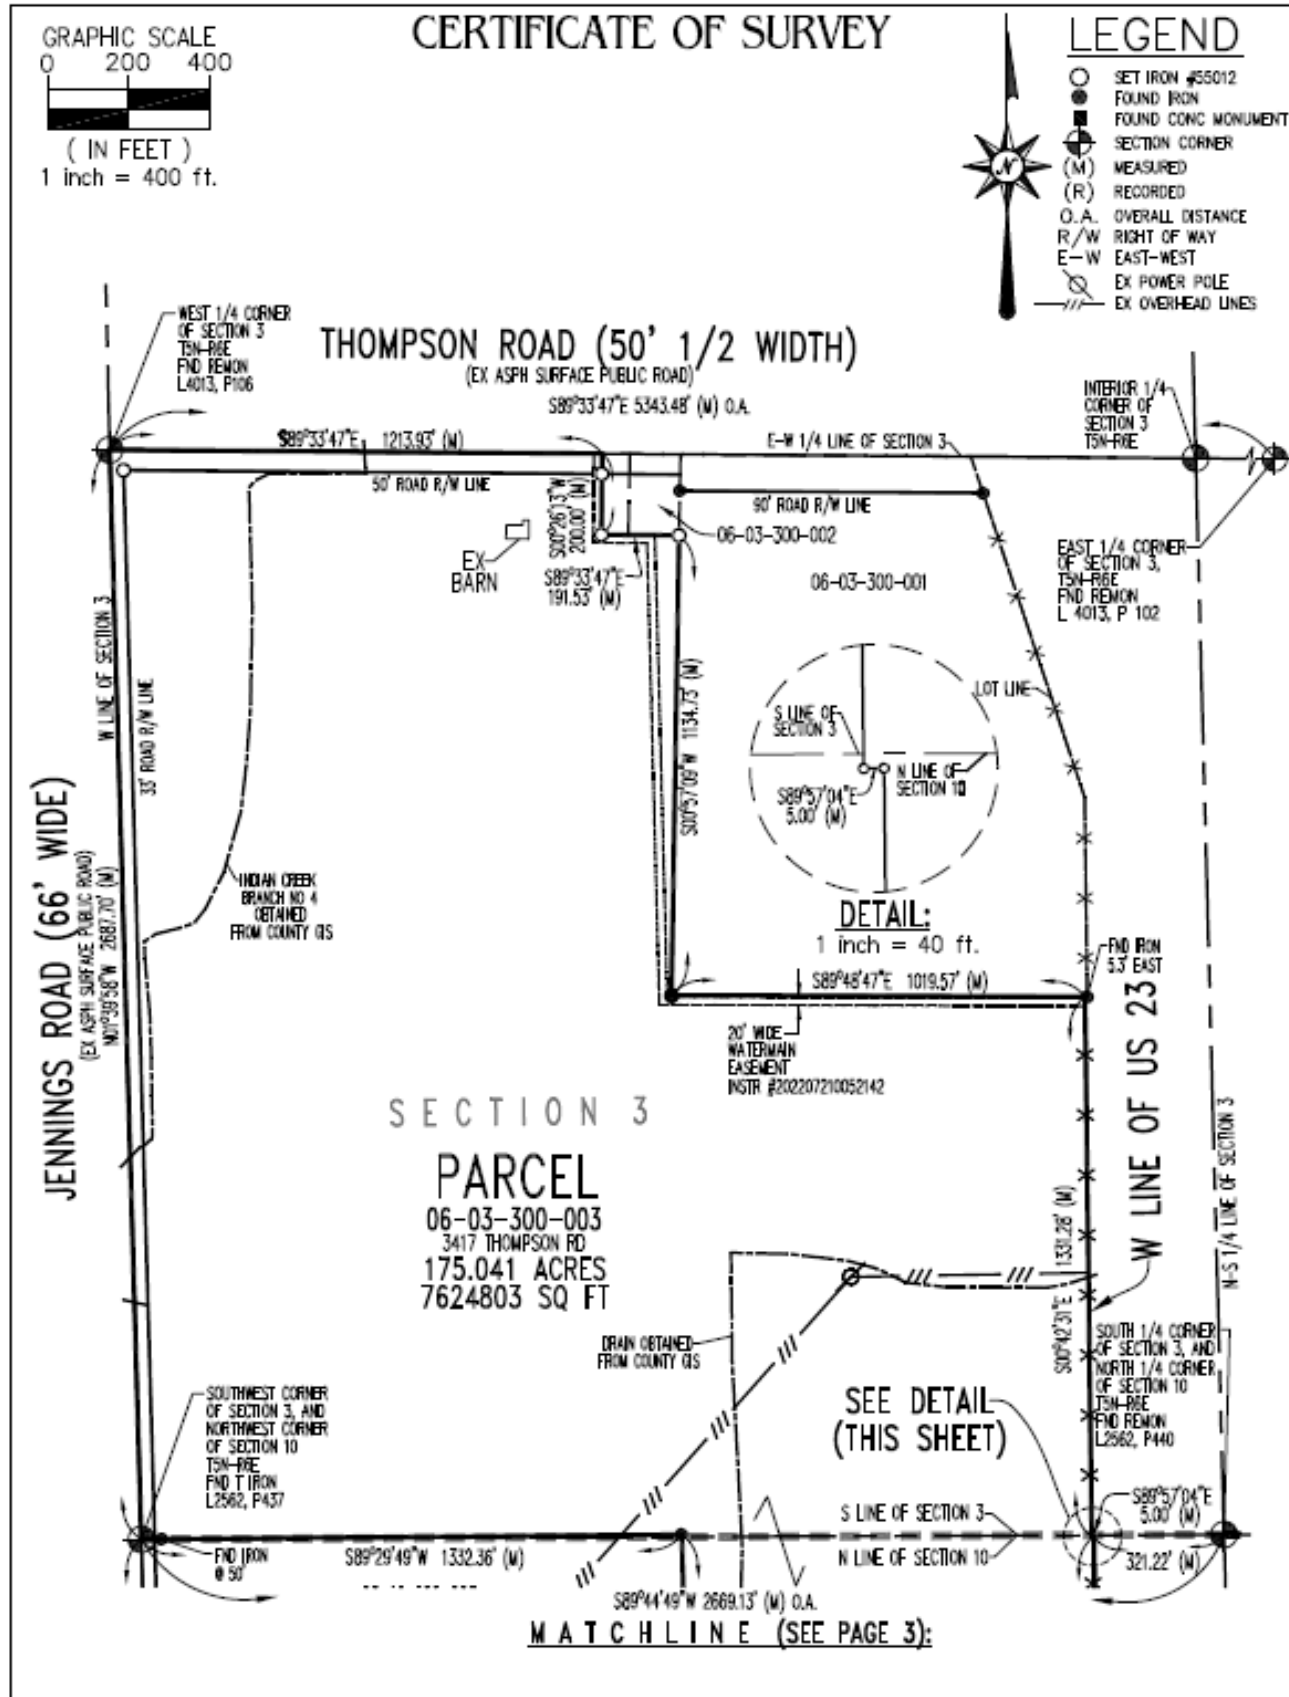

- Lake Fenton School District
- Planned unit development (Fenton Twp. open to amending current plan)
- 18” Water main in place and accessible off Thompson Road. Sewer with adequate capacity running along Jennings Rd. 2026.

Thompson Road Corridor Study Fenton Township

Project Details:

This Corridor Study on Thompson Road extends 3.8 miles from Linden Road to Fenton Road. This study explores potential design alternatives and improvements that will help alleviate current and anticipated future congestion along the corridor. Currently, the interchange of US-23 and Thompson Rd. experiences rush hour traffic delays for the northbound and southbound US-23 exit ramps that can back up to US-23. A main cause of this is the lack of roadway capacity between the two Thompson Road traffic signals, often leading to backups from one signal through the other. Addressing the traffic congestion and safety issues at the US-23 Interchange is an urgent priority.

Project Traffic and Safety Improvement Goals:

The traffic operations and safety improvement goals include—

- Reduce traffic delays at the US-23 Interchange, including the northbound and southbound exit ramp backups along with the Thompson Road backups between and approaching the two US-23 ramp intersections.
- Improve safety at the Thompson Road intersections with high-crash rates. These three intersections are at southbound US-23 ramps, northbound US-23 ramps, and Torrey Road.
- Improve Thompson Road outside of the US-23 Interchange to encourage development. These options include widening, for a center left turn lane, upgrading traffic signals, and roundabouts.

FOR MORE INFORMATION:
Mike Deem, Zoning Administrator

Scan for Project
Website

Safety Improvements

Roundabouts at US-23

- Operates efficiently with reduced delay and increased capacity over a traditional four-way stop or signalized intersection.
- Roundabouts reduce all crashes by 55% with fatal and injury-related crashes reduced by 78%
- Number and severity of crashes are reduced due to lowering speeds and angle of impact.

Center Left-Turn Lane (Jennings to US-23)

- Reduced rear-end crashes
- Simplified left-turns
- Smoother flow of traffic and increased capacity
- Important for future development
- Smooth transition into roundabout

CHARTER TOWNSHIP OF FENTON
Ordinance No. 661
Adopted: June 19, 2006

An ordinance to amend ordinance No. 594 of the Township of Fenton, commonly known as the Fenton Township Zoning Ordinance, to change the zoning of certain parcels of land, 06-03-300-003 & 06-10-100-018 owned by Crystal Creek Estates, LLC from AG, Agriculture and/or RMH, Residential Mobile Home, R-3, Single Family Residential & C-2, General Business to PUD, Planned Unit Development and to amend the Township Zoning Map to reflect the zoning change.

THE CHARTER TOWNSHIP OF FENTON, COUNTY OF GENESEE, MICHIGAN ORDAINS:

After public hearing and publication of notice thereof as required by the statutes of the State of Michigan, Section 3.02 A of the Fenton Township Zoning Ordinance (Ordinance No. 594) is hereby amended as follows:

SECTION 3.02 A
06-03-300-003

The Township Zoning Map is hereby amended to reflect the change in zoning from AG and/or RMH, R-3 and C-2 to PUD with the following conditions:

For the area to be developed as commercial:

1. Permitted principle & accessory uses shall be restricted to the uses allowed in the C-2, General Business zoning district.
2. The maximum height of buildings without a residential component shall not exceed 40 feet.
3. The maximum height of buildings with a residential component shall not exceed 29 feet, unless the method for fire protection is reviewed and approved by the Fire Department, in which case height may exceed 29 feet but shall not exceed 40 feet.
4. Minimum set backs shall be established at the time of site plan review & approval.
5. The architectural design of the buildings and streetscape shall conform to the concept rendering submitted as part of this PUD.

For the area to be developed as an assisted living facility:

6. Permitted principle uses shall be restricted to an assisted living facility.

7. The maximum building height shall not exceed 29 feet, unless the method for fire protection is reviewed and approved by the Fire Department, in which case height may exceed 29 feet but shall not exceed 40 feet.
8. Minimum set backs shall be established at the time of site plan review & approval.
- * 9. Number of beds shall not exceed 100.
10. The architectural design of the facility shall conform to the concept rendering submitted as part of this PUD.

For the areas developed as single family detached dwelling units:

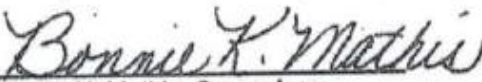

11. Permitted principle uses shall be restricted to Single Family Residential – Detached
12. Permitted accessory uses shall be restricted to those permitted in the R-3 zoning district.
13. The maximum building height shall not exceed 29 feet.
14. Maximum coverage of lots by all buildings shall not exceed 30%
- * 15. The maximum number of units shall not exceed 194.
16. The minimum floor area for each unit shall be 1,250 square feet.
17. The minimum lot size for each unit shall be 10,800 square feet.
18. The minimum lot width for each unit shall be 90 feet.
19. Minimum set backs for each unit shall be as follows:
 - a. front yard 30 feet
 - b. side yard 10 feet
 - c. rear yard 35 feet
20. The architectural design of the buildings shall conform to the concept rendering submitted as part of this PUD.

For the areas developed as single family attached dwelling units:

21. Permitted principle uses shall be restricted to Single Family Residential – Attached
22. Permitted accessory uses shall be restricted to those permitted in the R-6 zoning district.
23. The maximum building height shall not exceed 29 feet.
24. Maximum coverage of lots by all buildings shall not exceed 30%
- * 25. The maximum number of units shall not exceed 136.
26. The minimum floor area for each unit shall be 1,000 square feet for the center units and 1,250 square feet for the exterior units.
27. Minimum set backs for each building shall be as follows:
 - a. front 25
 - b. set back between buildings 15
 - c. rear yard 25
28. The architectural design of the buildings shall conform to the concept rendering submitted as part of this PUD.
29. Adequate drainage shall be provided to address the existing drainage problems along Jennings and to the south of this site per a plan approved by the Genesee County Drain Commissioners Office.
30. A buffer screen approved by the Planning Commission shall be provided between the commercial property and the single family attached dwelling units and along the property lines that abut the existing adjacent properties along Jennings Road with the exception of the areas that are naturally heavily wooded and will remain undisturbed.
31. The developer shall construct a type I well and provide the ability for adjacent property owners to tap into the well should they choose.
32. Commensurate with the effective date of this rezoning ordinance, the Consent Judgment, which currently dictates the nature of any future development on the subject property shall be either amended by both parties to permit the development

- of the property in accordance with the provisions of this ordinance or, in the alternative, said Consent Judgment shall be set aside by the parties, and the related case shall be dismissed with prejudice.
33. The developer of the PUD project shall pay to Fenton Township the total cost of any necessary upgrades to the sanitary sewer system, as determined by the Township.
 34. The developer shall construct the sanitary sewer infrastructure along Jennings Road, from Thompson Road to Lahring Road in such a manner to allow adjacent property owners on both sides of Jennings Road to connect to it.
 35. The Planning Commission & Township Board will evaluate this request in 5 years and may initiate a rezoning of the property if the developer has not demonstrated that suitable, continual progress has been made to develop the property consistent with this ordinance.
 36. This amendatory ordinance shall not become effective until twenty-one (21) days after the Consent Judgment affecting the subject property, (approved 12/20/02; Circuit Court Case No. 01-71444-CZ), is amended to permit rezoning of the property.

This amendatory ordinance is hereby declared to have been enacted by the Fenton Township Board of Trustees at a regular meeting thereof held on the 19th day of June 2006 and is ordered to be given publication in the manner prescribed by law. It shall become effective seven (7) days after adoption and publication.

 Bonnie K. Mathis, Supervisor

 Robert E. Krug, Clerk

DATA TABLE

NUMBER OF RESIDENTIAL UNITS:

HOUSE LOTS	193

APARTMENTS (Above Retail Bldgs.)	156

AREA OF RETAIL BUILDINGS:

GROCERY STORE	40,700 s.f.
SHOPPING STRIP	161,400 s.f.
ASSISTED LIVING	33,000 s.f.

SECTION 3.21 Planned Unit Development (PUD)

The Planned Unit Development zoning district is designed to provide a framework within which a developer, upon his initiation, can relate the type, design and layout of residential and/or commercial uses to a particular site and particular demand for housing and/or other local commercial facilities in a manner consistent with the preservation of property values within established residential areas. The section also provides an added degree of flexibility in the building design and land use arrangement so that a mixture of housing units and provision of common open space can be provided. The zoning district is intended to accommodate developments with mixed or varied uses, on sites with unusual topography or unique settings within the community, or on land which exhibits difficulty or costly development problems or sites that contain natural features such as wetlands, farmland or woodlots that are important for the Township to retain in order to protect its character and shall not be allowed where this zoning classification is sought primarily to avoid the imposition of standards and requirements of other zoning classifications rather than to achieve the stated purposes herein set forth. The Township Board does hereby determine that the following regulations are the minimum requirements for the promotion and protection of the public health, safety and welfare. Some uses permitted in this district are required to comply with specific design standards.

A. Permitted principal uses

All permitted principal uses by right or by special use permit as identified in the Table of Uses (Table 3-3) shall be permitted in the PUD district. In addition, the following uses shall be permitted only in the PUD district.

1. Residential, aviation development
2. Residential, equestrian development (5 acre minimum for first horse and 1 acre for each horse over one)

In PUD's approved solely for agricultural or residential uses, the use of waterfront property for the purpose of providing access to such body of water for non-riparian property owners is prohibited, with the exception of the redevelopment of commercial properties existing as of the effective date of the amendment to this section (11-10-03). The Township Board may allow the use of the water body by adjacent residential nonriparians as part of such PUD redevelopment, provided that the result of the redevelopment decreases the total number of boat slips permitted by the Department of Environmental Quality, as of the effective date of the amendment to this section (11-10-03), by at least 50%, and all launch sites are removed. In approving the PUD, the Township Board may permit retention of more than 50% of the existing slips, not to exceed 5, provided they determine the proposed improvements will result in a proper and safe use of water resources in the Township and will maintain the physical, ecological, cultural and aesthetic characteristics of the lake, preserve and protect the quality and safety of the lake and shoreline and rights of riparian owners and users as

well as the Township as a whole, and promote the public health, safety and welfare of all persons making use of the lake and properties adjacent to the lake.

B. Standards for approval

Based upon the following standards, the Planning Commission may recommend denial, approval, or approval with conditions, and the Township Board may deny, approve, or approve with conditions the proposed planned unit development.

1. Off-street parking shall be sufficient to meet the minimum required by the ordinances of the Township. However, if it is deemed necessary in order to achieve the purposes of this section, the Planning Commission may relax parking requirements during site plan review.
2. All streets within the planned unit development shall meet the minimum requirements of the Township Subdivision Control Ordinance, unless modified by the Planning Commission.
3. Landscaping shall be provided so as to ensure that proposed uses will be adequately buffered from one another and from surrounding public and private property. However, if it is deemed necessary in order to achieve the purposes of this Ordinance, the Planning Commission may relax landscaping requirements as part of site plan review.
4. Judicious effort shall be used to ensure the preservation of the integrity of the land and the preservation of natural, historical, and architectural features.
5. Surface water shall be retained on the site unless the applicant can demonstrate that to do so would be harmful to the environment, or is not practical. In any case, storm water shall not flow off the site at a rate greater than the rate of flow prior to development and storm water shall not be directly discharged into a lake.
6. The site shall have adequate lateral support so as to ensure that there will be no erosion of soil or other material. The final determination as to adequacy of, or need for, lateral support shall be made by the Township Building Inspector and/or Township Engineer.
7. The proposed density of the planned unit development shall be no greater than that which would be required for each of the component uses of the development in the zoning district in which it is permitted. However, if it is deemed necessary in order to achieve the purposes of the section, the Township Board may permit increased density in return for increased open space. Non-contiguous property may not be used in calculating open space and under no circumstance shall the open space be located on non-contiguous property.

C. Traffic and accessory conditions

The following regulations concerning traffic and accessory conditions shall be followed:

The Charter Township of Fenton
Zoning Ordinance

Article 3
District Regulations

1. Safe, convenient, uncongested, and well defined vehicular and pedestrian circulation within and to the zoning district shall be provided.
 2. Drives and streets shall not be laid out to encourage outside traffic to traverse the development nor to create unnecessary fragmentation of the development into small blocks.
 3. No material impediment to the visibility of automotive traffic, cyclists or pedestrians shall be created or maintained.
- D. Approval procedure
1. The PUD zoning approval shall follow procedural requirements of Section 14 of this ordinance for amending the zoning ordinance. The Planning Commission shall hold a public hearing. The Planning Commission shall review the conceptual PUD development plan as described in subsection 3.21E to determine its suitability for inclusion in the land use and zoning plans of the Township and adoption by Township Board as part of the ordinance.
 2. The Planning Commission shall then submit the proposed amendatory ordinance to the Township Board together with their recommendation and a summary of comments received at the public hearing.
 3. The Township Board, prior to the first reading of the amendatory ordinance, shall hold a public hearing meeting the notice requirements for a special use permit outlined in Article 11 of this Ordinance. Following that public hearing, it may amend or place additional conditions on the zoning ordinance amendment. The adoption of the ordinance or denial of the rezoning request will take place at the second reading conducted by the Township Board.
 4. PUD site plan approval procedure may commence only after the acceptance by the Township Board of the conceptual PUD development plan and the rezoning of the property as required.
 5. PUD site plan approval process shall follow the procedures for site plan approval outline in Article 8.
- E. Conceptual PUD development plan requirements
1. The applicant for preliminary phase approval of a PUD conceptual plan shall submit sufficient copies of the following technical or graphic materials together with such fees as may be required.
 2. The PUD conceptual plan shall indicate the entire contiguous holding of the petitioner or owner who wishes to develop the entire parcel or any part thereof, and shall include the area and use of land adjacent to the parcel to be developed. The plan shall exhibit any unusual problems of topography, utility service, land usage or land ownership. The plan shall also exhibit all existing and proposed structures, existing and proposed streets, open spaces and other features as required by ordinance or regulation.

3-40

3. The conceptual plan shall show all proposed uses and allotted spaces, gross site area, street and vehicular access areas, number of each variety of habitable space, total number of dwelling units and total open space. The plan shall:
 - a. Define the location of the areas to be devoted to particular uses.
 - b. State the acreage to be devoted to the particular uses.
 - c. Set forth the proposed density of the dwelling units by use type and of the entire project.
 - d. Show the location of parks, open recreation areas, other open space and all public and community uses.
 - e. The applicant shall present material as to the development's objectives and purposes to be served; conformity to plans and policies of the Township; market needs; impact on public schools, utilities, and circulation facilities; impact on natural resources; and a staging plan showing the general time schedule of the expected completion dates of the various elements of the plan.
 - f. Any additional graphics or written materials reasonably requested by Planning Commission or Township Board to assist the Township in visualizing and understanding the proposal shall be submitted.
 - g. Upon submission of all required materials and fees, the Planning Commission shall follow the procedures for review of a zoning amendment as outlined in subsection 3.21D.

(Amended: Ord. No. 669; 7-24-06)

F. Site plan approval

Following approval of the conceptual plan by the Township Board, the applicant may submit site plans for phases of the approved conceptual PUD development plan. The site plans shall conform with the approved conceptual plan. The site plans shall be reviewed and approved by the Planning Commission following the procedures outlined in Article 8.

G. Deviations from approved PUD site plan

Deviations from the approved plan may occur only under the following circumstances:

Minor changes to a previously approved PUD site plan may be approved without the necessity of Planning Commission or Township Board action if the Zoning Administrator certifies in writing that the proposed revision does not alter the basic design nor any specified conditions of the plan as agreed upon by the Planning Commission and the Township Board. Any other change will require approval following the procedures outlined above for the original approval. Appeal of the Zoning Administrator's decision regarding the need for formal review by the Planning Commission and Township Board is appealable to the Zoning Board of Appeals

Any deviation from the approved PUD site plan, except as authorized shall be considered a violation of this section and shall be a misdemeanor punished as prescribed herein. Further, any such deviation shall result in the PUD zoning district reverting to its previous zoning.

H. Design Standards

Some uses permitted in this district have required design standards as listed in Article 11.
