Rockdale County has direct access to Georgia's Interstate 20, a CSX rail line, and the nearby fast-growing East Coast ports of Charleston and Savannah, positioning itself to capture demand from companies seeking distribution and warehouse space near Atlanta's dense population centers. The land adjacent to I-20 has been called one of the most affordable high-tech corridors in the country. The I-20 East corridor has attracted massive industrial projects including Meta's data center, SKC's computer chip plant, and Ascend Element's lithium-ion battery recycling facility.

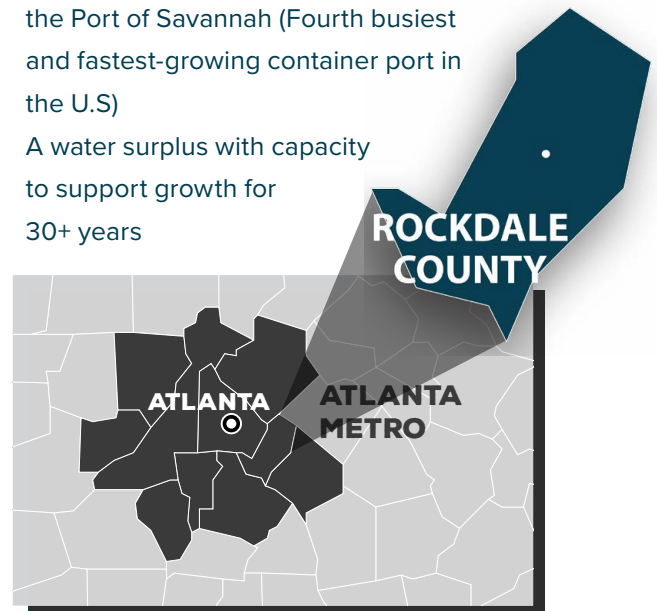

Just east of Rockdale County, **Lidl** invested \$100 million in a new 925,000 square-foot facility serving as a regional headquarters and product supply to Lidl stores across the region. The facility is Lidl's fourth in the U.S. to date and is one of the largest pre-engineered metal buildings ever planned in the country. The region's central location and strong infrastructure network are a few of the reasons cited for choosing this area.

In another big win for Interstate 20 just east of Rockdale 20 East Business Center, in early 2023, **Archer Aviation** began construction on a 350,000 square foot facility adjacent to Covington Municipal Airport to high-volume manufacture hundreds of electric vertical takeoff and landing (eVTOL) aircraft annually, believed to be a first for the eVTOL

industry. The site is designed for possible expansion into an additional 800,000 square feet, targeting a production scale of up to 2,300 aircraft per year.

ROCKDALE COUNTY

1. Home to area workforce of 1.2 million+ workers
2. Less than 2 hours by air to 80% of the U.S. market
3. Minutes from Atlanta and the Hartsfield-Jackson Atlanta International Airport, the world's busiest airport
4. Great access and less than 4 hours to the Port of Savannah (Fourth busiest and fastest-growing container port in the U.S)
5. A water surplus with capacity to support growth for 30+ years

Rockdale County has emerged as one of the key supply chain and logistics and premiere e-commerce locations in the Southeastern USA.
