## CORPORATE NEIGHBORS

## ENERGY COST SAVINGS

The project is served by City of Corona Utility. Corona's electric utility was established on April 2001 in response to state-wide rolling blackouts and electric price instability. All new residents and developments are prospective customers of the City's electric utility. New residents and developments will only become customers of the new electric utility when it is cost effective to have an interconnection with Southern California Edison ("SCE") facilities.

The Corona Manufacturing Assistance Program (MAP) is here to support, empower, and grow Corona's manufacturing industry. As one of the most in-demand areas for the city and region, the City is partnering with other organizations to provide manufacturers with the tools and resources necessary to thrive and grow in Corona.

The City of Corona Office of Economic Development serves as a liaison between the City and the business community. The Office of Economic Development offers no-cost consultation for incentive identification, site selection, market analysis, regulatory and permitting compliance assistance.
