At opening, the hospital will include 80 beds, with the ability to expand to 320 beds to meet long-term population growth.

Planned services include cardiology, orthopedics, labor and delivery, urology, gastroenterology, general surgery, cancer care, bariatrics, neurology and more.

The hospital will be staffed by approximately **600** physicians, nurses, clinicians, and support staff at opening, driving consistent daily traffic and employment density.
