## Property Disclosure Summary

Section 1103 of the California Civil Code mandates the disclosure of six (6) natural hazard zones if the Property is located within any such zone. Those six “statutory” hazard zones are disclosed on the Natural Hazard Disclosure (“NHD”) Statement (“NHDS”) on the preceding page. Note that the NHDS does not provide for informing buyers if a property is only partially within any of the delineated zones; therefore, a FEMA flood certificate is included if any portion of the parcel is within a Special Flood Hazard Area. This Report also discloses hazards identified by county and/or city officials in the Safety Element of their jurisdiction’s General Plan.

Below is a summary of the property disclosures in this Report. Farther below, discussion sections explain each disclosure, place the determination in perspective, and give buyers additional information they may need in the decision-making process. The disclosures are grouped according to hazard category. In each category, the hazard identifies the government authority responsible for the disclosure requirement, statutory map, or relevant hazard data (state, county or city). Disclosure determinations (e.g., IN or NOT IN) are parcel specific. Where a governing agency describes a hazard but has not evaluated or mapped a hazard zone in the Public Record, a usable map is not available and “Map N/A” is reported. Often, a hazard zone mapped in a city (or county) General Plan is identical to county (or state) hazard zones disclosed elsewhere in the Report; those redundant local disclosures are cited in the *Public Records Searched* at end of Report (see “Public Records not Repeated or Reported”), as is the data source for each disclosure.

## Summary of Monterey County Water Resources Agency Ordinance No. 3932

### Section 6. Mandatory water conservation regulations.

#### U. Retrofitting upon change of ownership or use.

- i. All existing residential structures shall, at the time of change of ownership, be retrofitted, if not already so, as follows:
  - a. All shower heads shall have a maximum flow capacity of 2.5 gallons per minute;
  - b. Each toilet shall be replaced with an ultra-low flow toilet with a maximum tank size or flush capacity of 1.6 gallons.
- ii. All existing commercial and industrial structures shall, at the time of change of ownership or change of use, be retrofitted, if not already so, as follows:
  - a. All showerheads shall have a maximum flow capacity of 2.5 gallons per minute.
  - b. Each toilet shall be replaced with an ultra-low flow toilet with a maximum tank size or flush capacity of 1.6 gallons.
- iii. Before the close of escrow for any change of ownership, defined by this ordinance, of real property within the regulatory jurisdiction of the Agency, compliance with the above requirements shall be verified by submittal of a completed certification form prescribed by the Agency, signed by the selling owner(s) or authorized agent(s), and accompanied by one of the following: (1) a signed building inspection report, (2) a signed purveyor inspection report, (3) a plumber or contractor's completed work order, or (4) an original purchase receipt to the Agency or to such other city or county official as the General Manager may designate.
- iv. This sub-section U applies to all properties that enter escrow on or after the effective date of this ordinance. (August 22, 1997)
- v. This ordinance does not impose upon the real estate or escrow agency any liability in connection with a violation of this sub-section U.
- vi. The General Manager may waive the proof of retrofit before close of escrow requirement of sub-section U.iii where the seller and buyer certify that the structure will begin to be remodeled or modified within one hundred and twenty (120) days of the close of escrow, and that the structure will be exclusively retrofitted with low water-use fixtures upon completion of construction.

**NOTE: Plumbing permits may be required for replacement of fixtures. Please check with your local jurisdiction.**

#### Summary of Other Mandatory Water Conservation Regulations

- Remodeling which adds a bathroom or increases the existing square footage by at least 25% must include plumbing retrofit of the entire structure.
- Plumbing leaks must be repaired within 72 hours of their discovery.
- Any hose used for washing vehicles must have an automatic shutoff nozzle.
- No water may be used wastefully or without reasonable purpose.
- Any hose used for washing the outside of any building must have a shutoff nozzle.
- Hosing off the sidewalk, driveway, etc. is prohibited, except in matters of public health or safety. The use of a bucket for such tasks is not prohibited.
- Allowing water to spill into streets, curbs or gutters, in excess of beneficial use, is prohibited.
- Emptying and refilling pools and spas is prohibited, except where necessary to prevent or repair structural damage or to comply with public health regulations.
- Fountains may only use water recycled within the system.
- Repeated violations may result in fines.

#### Instructions for Extension

- Seller must complete top portion and sign Section 3 of the *Water Conservation Certification* form and check the extension request box. Upon approval by Buyer to comply with retrofit requirements, Buyer must sign Section 3 of form. Buyer has 120 days to retrofit the toilets and showerheads to low-flow. A **photocopy** of the form must be submitted to the MCWRA; the buyer retains the **original** form for up to 120 days.
- The extension is considered granted when the Agency receives the copy of the form.
- Within 120 days, Buyer must retrofit toilets and showerheads to low-flow. When retrofit is complete, Buyer must sign bottom portion (Buyer's Acknowledgement) and submit verification (receipts, etc.) with original form to the MCWRA.

Buyer is advised to confer with a local architect, contractor and planning officials regarding such restrictions and the present and future availability of permits for new construction, contemplated additions, or other remodeling projects.

### **VOLUME STANDARDS**

The City of Carmel-by-the-Sea has a method of measuring the space in buildings using a volume calculation. A Buyer should consult the applicable sections of the Carmel City Code to determine how the calculation would apply to any changes or future development of the property.

### **CITY/COUNTY INSPECTIONS AND REPORTS**

Prior to change of ownership, most cities within Monterey County require a city inspection and/or issuance of a city report (fees vary). For properties located in the unincorporated areas of Monterey County, a written report of permit history and violations is available for a fee.

### **CITY INSPECTIONS OF PROPERTIES/ERRORS AND OMISSION WARRANTIES**

Several jurisdictions require point-of-sale inspections prior to closing of escrow. However, the jurisdictions do not warrant the results of the inspection. Subsequent inspections of a property previously cleared of code or permit issues may be required to abate newly noticed violations. The disclaimer received from a jurisdiction may contain language such as: *"Prior inspection errors or omissions shall not prevent the City from abating any noted violations on the property against the seller, buyer or any subsequent owner."*

**COASTAL ZONE POLICIES** Several cities and areas of Monterey County are under the jurisdiction of the California State Coastal Commission which may have authority to approve or disapprove remodeling, building and development projects. The Buyer is therefore advised that they should satisfy themselves concerning a property's current zoning and if located in the Coastal Zone, any potential impacts Coastal Zone policies may have on the property.

### **PROPERTY RENTALS**

Several cities and the County of Monterey have ordinances concerning short-term rentals. Generally, these ordinances are strictly enforced and **prohibit rentals of less than 30 days**. Home Owner Association ("HOA") and other local policies may impact the ability to rent condominiums or other residential structures. Buyers should satisfy themselves regarding any and all local ordinances and policies, including if applicable, any HOA restrictions or policies, which may impact or restrict the renting of property.

## MONTEREY COUNTY SUPPLEMENTAL DISCLOSURE

### **HISTORICAL ASSESSMENT**

Some jurisdictions in Monterey County may require a historical assessment regardless of the property's date of construction. Buyer is advised to consult with planning officials regarding a property's current or potential historical identification, and all regulations affecting such properties.

### **TREE HEALTH/PROTECTION/PRESERVATION**

Most areas of Monterey County have tree protection/preservation regulations. Buyers should investigate those regulations before any tree is removed. The Buyer is advised that they should consult with a qualified arborist and satisfy themselves concerning any trees on the property and their health.

### **PRIVATE ROADS**

Some properties may have access by a private road shared by two or more property owners. If applicable, the Buyer should determine if there is a recorded private road maintenance agreement and compliance. Buyer is also encouraged to investigate and assess the potential financial liability concerning the maintenance, improvement, replacement, and other costs and liabilities associated with private roads.

### **AIRPORTS/LAGUNA SECA RACEWAY**

**Monterey County** is home to three airports currently in use. Those municipalities are Marina, Monterey and Salinas. Buyer should be aware of potential air traffic noise in these areas. Laguna Seca Raceway is the site of periodic major events, which may produce increased noise and/or traffic.

### **HIGHWAY AND LOCAL ROAD RELATED IMPROVEMENTS**

Various local road and highway projects are undertaken periodically by local and state agencies. Buyer is encouraged to consult with appropriate agencies to determine any and all impacts those improvements may have on the subject property.

### **NON-DOMESTICATED ANIMALS**

Certain areas of Monterey County have experienced occasional intrusions of non-domesticated animals. Buyer is advised to consult with the city or county and/or an animal control professional for further information.

### **FORMER FEDERAL/STATE ORDNANCE LOCATIONS**

Anyone purchasing property within one mile of a known former military training ground, such as Fort Ord, is advised of the potential presence of live ammunition/explosives.

### **AGRICULTURAL USES**

Agriculture and related activities are a major industry in Monterey County. Buyer is advised that agricultural activities may take place that could affect adjoining areas.

### **BUFFER ZONES**

Monterey County is proposing to establish buffer zones around active and closed landfills that would prohibit residential development within those zones, and limit residential building within buffer zones. Buyers should satisfy themselves of the potential for a property inside any buffer zones. Information can be obtained by phoning the Environmental Health Department at (831) 755-4542, or visiting the County website regarding this issue.

### **FIRE SPRINKLERS**

There is a history of recalled residential fire sprinklers in Monterey County. Buyers should satisfy themselves that any fire sprinklers installed on the property are in proper operating condition.

## MONTEREY COUNTY SUPPLEMENTAL DISCLOSURE

### **ONSITE WATER TREATMENT SYSTEMS (OWTS – SEPTIC SYSTEMS)**

The Monterey County regulations regarding OWTS were changed in 2018. The new regulations could substantially increase the cost for repair or replacement of any septic system. Contact the Department of Environmental Health for details.

### **SEWER LATERAL INSPECTIONS**

The Cities of Monterey, Pacific Grove and Carmel-by-the-Sea as well as other structures connected to the Carmel Area Wastewater District (CAWD) require point-of-sale sewer lateral inspections prior to the closing of escrow. Buyers are encouraged to check the local jurisdiction for sewer lateral inspection and replacement requirements.

### **PRIVATE WELLS**

Depending on property location, certain governmental agencies have requirements for private wells. Buyer is advised to determine from the appropriate agency that all requirements for private wells on the property have been met. The buyer is strongly advised to satisfy themselves concerning the availability of water as well as the quality and quantity of water sourced from any domestic private well, whether planned or existing within Monterey County.

### **WATER RETROFIT REQUIREMENT**

Every property (residential or commercial) in Monterey County that changes ownership is subject to the water retrofit requirements and a retrofit certification form must be completed and submitted to the proper water agency. Each of the three water districts has similar retrofit requirements (aimed at reducing household water consumption) and each district has its own water certification form. If the property is in the unincorporated area of the county (not within city limits) and you are unsure of which agency has jurisdiction, contact the Monterey Peninsula Water Management District at 831-658-5601 with the property's parcel number.

### **WATER AVAILABILITY**

Water utilities and mutual water companies may periodically impose mandatory or voluntary cutbacks in service and/or increased fees, restrictions or moratoriums on building, remodeling or increased water use. Buyer is advised to contact the water company which serves the property, any appropriate governing water or planning agency, and/or the Department of Environmental Health for more information concerning the nature and extent of any current or anticipated water policies which may have an effect on the Buyer's general use, development and enjoyment of the property.

Buyer is advised that the California State Water Resources Control Board ("SWRCB") has adopted a Cease and Desist Order ("CDO") which includes enforcement action against California American Water ("Cal-Am") for failure to comply with Water Order 95-10 and Water Code section 1052. The Buyer is therefore advised that they should satisfy themselves concerning the CDO and other water related issues and how they may impact the property.

The Agents, Brokers and representatives for Buyers and Sellers are not responsible for actions taken by federal, state or local governing bodies and/or water suppliers that may result in restrictions to the availability of water to a property. Buyer and/or Seller should contact the appropriate governing or managing authority for current water availability.

**SALT WATER INTRUSION** Buyer is also advised that measurable amounts of salt-water intrusion have been found in some of the County's underground water supply.

### DISCLOSURE ON MONTEREY PENINSULA WATER MANAGEMENT DISTRICT COMPLIANCE

The Monterey Peninsula Water Management District (MPWMD) imposes certain requirements on properties related to water fixtures. Buyers should investigate MPWMD requirements and inspection guidelines and satisfy themselves that they understand the requirements imposed by the MPWMD. Buyers should visit the MPWMD website at <http://www.mpwmd.net> and call the MPWMD to satisfy themselves as to whether an existing inspection is sufficient under MPWMD rules.

The Agents, Brokers and representatives for Buyers and Sellers are not experts on MPWMD rules and regulations and make no representations as to how the information set forth on past or current inspections may or may not restrict the parties' ability to secure future permits or approvals related to the use of water, or number or type of water fixtures on the subject property. All applicable forms and certification instruments can be found on the Monterey Peninsula Water Management District's website or by calling them directly at: 831-658-5601.
