Offering Memorandum

Purchase Price: \$72,000

Single Family Home Investment Opportunity - Tenant Occupied SFR | Strong Cap Rate (Current = 16.2% | Pro Forma = 17.1%)

#### **Investment Summary**

We are pleased to present a unique value-add investment opportunity: a single-family residence located in Canton, a smaller town with a strong rental demand driven by limited housing supply. This charming 1920-built home offers investors stable cash flow from day one, with potential for future appreciation through roof replacement or rent increases.

Property Type: Single-family residence Layout: 3 bedrooms, 1 bathroom Square Footage: 1,024 sq ft

Year Built: 1920

Occupancy: Fully leased to a long-term tenant

Current Rent: \$1,100/month

Tenant Utilities: Tenant pays all utilities

Landlord Expenses: Minimal — primarily taxes and insurance Condition: Well-maintained, with opportunity for cosmetic updates

Market Insight: Canton's rental demand exceeds supply, supporting continued tenant stability and potential rent growth

### **Property Highlights**

Stable Income: Long-term tenant provides consistent cash flow at \$1,100/month

Low Operating Costs: Tenant is responsible for all utilities

Value-Add Potential: Cosmetic updates & new roof could justify higher future rents

Undersupplied Market: Canton's limited rental inventory creates strong tenant retention and demand

Easy Management: Single-family asset with low maintenance requirements

### **Investment Rationale**

This property represents an ideal opportunity for a buy-and-hold investor seeking reliable cash flow with upside potential. The long-term tenant ensures immediate income, while the constrained rental market in Canton creates a favorable environment for future rent growth. With modest capital improvements, there is room to increase both the property's value and return. The current lease structure supports a strong cap rate with minimal landlord responsibilities, making this an attractive, low-touch investment.

List of potential work / repairs

Purchase Price: \$	72,000			
Vov potoptial ram	aire.			

### **Key potential repairs:**

Roof could do with replacement - no active leaks.

### Opportunities:

Improving the roof could decrease the cost of insurance for the building.
