### DETAILS

This premium property comes with approved plans for a by-right subdivision, fully entitled for seven luxury home lots in the Robinwood Road section of Wareham, Massachusetts. Featuring 400' of water frontage on Buzzards Bay, the site benefits from convenient boating access to the Cape Cod Canal. The eight-acre subdivision plan includes designs for seven custom homes with water access and three directly on the shore. Approved town sewer hookup and layout design plans are part of the parcel package as well as dock plans. While the current on-site residence operates as a short-term rental, the best use for the property may be redevelopment.

The development is shovel-ready, allowing a builder to break ground soon after acquiring the site without the usual costs and delays associated with a typical real estate development cycle. This rare offering, given its sizable acreage and premier waterfront, may also appeal to end users seeking a one-of-a-kind compound that simply couldn't be built elsewhere in the Cape Cod region. Whether developed as a subdivision or a single-family estate, the site offers the potential to create generational impact in Wareham.
