AIRPORTS

Jacksonville Aviation Authority (JAA) includes 4 airports

At the northeastern tip of Florida, Jacksonville does not have the same geographical restraints as other industrial peer markets throughout the peninsula. This allows the market to reach not only most of the state but also a significant portion of the eastern seaboard with same-day round trips. Jacksonville boasts the state's largest container port and second-largest vehicles port and has access to two of the state's primary roadway arteries, interstates 95 and 10.

The tight market conditions are fostering strong rent growth, and the annual rate of growth has increased by 14.0% year over year, well ahead of the National Index rate. Roughly 12.6 million SF of new industrial space has delivered in Jacksonville since 2018, nearly all of which has been leased. Investment sales activity has also been robust over the last year, totaling \$865 million with a declining trend in the average market cap rate.
