Residential Neighborhood (RN)	T-1	T-2
-------------------------------	-----	-----

Residential Neighborhoods T-1 and T-2 primarily accommodate single-family homes arranged in cluster or medium sized lots. Connections and pedestrian amenities should still be a priority for development design. These areas should also include parks, trails, and open space integrated into the development in appropriate locations. Neighborhood design includes longer blocks with homes set back from the street and parking accommodated in private driveways and garages. Density should be at the lower end of the transect unless clustering is used to maintain 60% open space. Affordable and workforce housing is encouraged County-wide.
