Survey fieldwork performed on: July 27, 2016

This survey was authorized by: Melissa Sutherland, representing Citizens National Bank

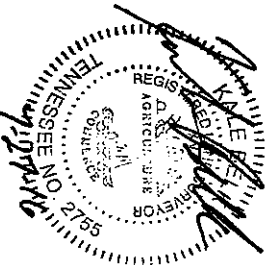

Certification:

This is to certify that this survey is a Category 1 survey made under my supervision and is a true representation of the land surveyed. The Ratio of Precision of the unadjusted survey is one foot in 10,000 feet, and an angular error of 05" per angle point. This survey was done in compliance with current Tennessee Minimum Standards of Practice. Angular and linear measurements were made using a Sokkia Setback Total Station, and a Topcon HiPer II RTK GPS Unit. This map has been calculated for closure, and has been found to be accurate within one foot in 263,461 feet.
