# REGIONAL OVERVIEW

## EXPONENTIAL POPULATION GROWTH

Considered the fastest-growing region in the state, the Raleigh/Durham/Research Triangle region has a population of over 2 million and has grown by more than 40% in the last 20 years. The area is expected to grow at an even faster rate in the next decade. Within the Triangle region, Wake County is the largest and fastest-growing area with a population of more than 1,072,000, adding approximately 65 people per day.

## DIVERSIFIED EMPLOYMENT BASE

At the heart of the region's success lies a diverse and growing blend of people and cultures from every corner of the globe. The region's quality growth and ability to mix native traditions and newcomer influences have shaped a population full of vitality, diversity, and prosperity. This talent-attractive environment boasts one of the most highly educated and diverse workforces in the nation. With more than 46 percent of its 25-or-older population holding a bachelor's degree or higher, it's no wonder Forbes magazine ranked Raleigh as one of the best cities for new college grads.

## INNOVATION

As the home of three nationally renowned research universities, the Triangle has garnered a reputation for innovation and entrepreneurship. The Research Triangle region utilizes a triple helix business model in which leaders from the area's businesses, government, and major research universities work together to transform business practices; acquire and develop the latest technology to enable new companies and industries to thrive.

## QUALITY OF LIFE

The low cost of living, quality health care, and ready access to abundant recreational activities make the Triangle region a desirable place to start or relocate a business. Centrally located between the majestic Blue Ridge Mountains to the west and the legendary Outer Banks/Atlantic coast to the east, the Triangle enjoys a favorable climate year-round. Tropical air in the summer and mild temperatures in the winter keep the mean annual temperature at a comfortable 60 degrees.

## TOP BUSINESS CLIMATE

Anchored by one of the nation's largest research parks and three nationally renowned research universities, the Research Triangle area consistently ranks among the nation's best economies year after year. Industry giants in pharmaceuticals, computer software, telecommunications, cleantech, and biotechnology dot the landscape, helping to fuel thriving retail sales and entrepreneurial success. In recent years, Apple, Google, and Nike announced headquarter expansion plans into the Triangle market.

## CONSISTENT EMPLOYMENT GROWTH

The Triangle area has had consistently low unemployment rates and high job growth rates. The area's unemployment is consistently below the state and national rates. The metro area's economic success is most evident in the rising incomes of its residents. The region's per capita income has long outstripped the state's per capita income, and this solid economic performance is projected to continue to increase over the next 15 years.
