PROPERTY DESCRIPTION

Gateway Inn at Mt. Rainier is a 37-key, midscale, limited-service property located in Ashford, Washington, directly outside the year-round Nisqually Entrance to Mount Rainier National Park. The hotel includes 14 standard and suite guest rooms, 15 standalone cabins with private bathrooms, and 8 RV sites with partial utility hookups. The ~2.7-acre, fee-simple site includes picnic tables, portable restroom facilities, and on-site owner/manager quarters for operational flexibility. There is also space available for approximately 10 tent camping sites, which are not included in the current key count. Originally built in 1935 and last renovated in 1986, the property has direct frontage along State Route 706. Former café, general store, and gift shop areas have been converted into lobby and room space, with high-visibility potential for reconversion to retail, food, or beverage use. Situated on the only west-side access route into Mount Rainier National Park, the property captures high traffic volumes and benefits from frequent gate wait times.

PROPERTY HIGHLIGHTS

- Seller Financing Available On Principal Of Loan Only
- At Year-Round Mt. Rainier Nat'l. Park Gate
- Highway Frontage In High-Traffic Corridor
- Upside With Repositioning & Cosmetics
- Expansion Potential On Owned Acreage
