MU-2 ZONING

Source: <https://handbook.dcoz.dc.gov/pages/mixed-use-mu-zones#MU-2-DC>

The Mixed-Use (MU) zones provide for mixed-use developments that permit a broad range of commercial, institutional, and multiple dwelling unit residential development at varying densities. The MU-1/DC through MU-10/DC zones specifically cover the Dupont Circle area with the intention of protecting and enhancing the unique characteristics of the neighborhood.

The purposes of the Dupont Circle Mixed-Use zones are to:

- Require a scale of development consistent with the nature and character of the Dupont Circle area in height and bulk and ensure a general compatibility in the scale of new buildings with older, low-scale buildings;
- Enhance the residential character of the area by maintaining existing residential uses and controlling the scale, location, and density of commercial and residential development;
- Protect the integrity of “contributing buildings”, as that term is defined by the Historic Landmark and Historic District Protection Act of 1978;
- Preserve areas planned as open gardens and backyards and protect the light, air, and privacy that they provide;
- Enhance the streetscape by maintaining the public space in front of buildings as landscaped green spaces and limited curb cuts on Connecticut Avenue; and
- Encourage greater use of public transportation and the free circulation of vehicles through public streets and alleys.

The MU-2/DC zone is intended to permit medium-density areas predominantly developed with residential buildings.
