

The Campbell House

Boutique Desert Retreat

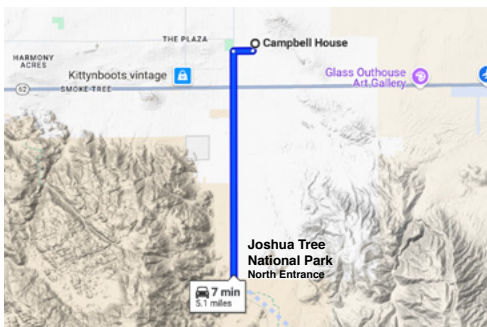

Offered at \$4,295,000

An extraordinary opportunity for luxury buyers, wellness entrepreneurs, or boutique hoteliers: Live the legacy in a private desert paradise—Set on twenty plus beautifully landscaped acres in historic Twentynine Palms, The Campbell House offers timeless desert elegance just minutes from the North entrance of Joshua Tree National Park and within reach of the Mojave National Preserve. Originally a 1920s stone manor, this spectacular property has been lovingly maintained to the highest standards of hospitality, blending old-world charm with modern comfort.

The estate features a stately colonial-style homestead with luxury suites, grand fireplaces, and original wood flooring, along with ten private guest cottages—each thoughtfully appointed with kitchenettes, patios, and distinct historic character. Guests enjoy resort-style amenities including a pool, hot tub, spa services, library, and daily breakfast.

The Campbell House is poised for expansion into a full-service luxury spa retreat, fine dining destination, or curated wellness resort. Its location, scale, and ambiance make it uniquely suited for retreats, weddings, creative residencies, and transformative guest experiences.

This is more than a property—it's a legacy, and a rare chance to shape the future of one of the desert's most cherished hidden gems.
