GENESIS - San Diego connects the region's scientific community with the most modern and cutting-edge facilities designed to date with strategically engineered laboratories and highly designed office space. Over +/-200,000 RSF and eight-stories of Class A LEED Gold life sciences space, this project will provide an environment for fundamental innovation and creation. Set amongst San Diego's thriving downtown core, GENESIS - San Diego offers vibrant experiences at its doorstep – whether it's the perfectly curated California-Mediterranean palette at Callie restaurant, the trolley station just steps from the front door or a baseball game at Petco Park.

Five components, endless options

Hyper-flexible lab environments in every suite

Every GENESIS suite is equipped with an industry standard, modular benching system. This system minimizes downtime and maximizes flexibility. The 5-component system is pre-plumbed and pre-wired for fast installation and effortless reconfiguration. Add components and rearrange overnight.

Adjustable Height Work Surfaces

Adaptable to any work environment and constructed with a welded metal frame to provide stability to the most sensitive instruments.

Mobile Cabinets

Combine any number of cabinets to customize storage.

Adjustable Shelving Unit

Bolts to any adjustable height table to offer 2 or 3 levels of shelving. Half-length units also available.

Service Unit

The core component, designed to accommodate up to 7 lab gasses and 12 electrical circuits per unit.

Fume Hoods

Each suite is capable of accommodating various sized fume hoods ranging from 4 – 8 feet.

Our labs deliver

- + Lab ready space 3 to 6 months from the start of final tenant design work
- + Modular components that can be configured in any order and any quantity
- + Effortless reconfigurations in support of evolving research programs
- + High-quality materials, functional layout, with a European design

Callie

East Village

California-Mediterranean restaurant from renowned Chef Travis Swikard

Enjoy an upscale business lunch or dinner at one of the most sought after restaurants right in your very own project – GENESIS San Diego.

Swikard fell for the flavors of Greece, Spain, Italy, Morocco, the Middle East, and every place along the Mediterranean coastline during his time cooking at Boulud Sud, one of iconic French chef Daniel Boulud's New York City restaurants. At Callie he brings the diversity of Mediterranean cuisines together with the ingredients and terroir of the greater San Diego region, his hometown.

This restaurant truly offers the premier environment for life science companies to continue to cultivate and expand their company within a highly desirable location.
