

HARVEY BERK

A graduate of Bucknell & New York University founded Manhattan Management Company (MMC) in 1961. MMC has evolved from a part-time business to a sophisticated company employing 250 people, managing 4,000 apartment units in New Jersey, Oklahoma, and Louisiana, and 15 commercial properties in New Jersey.

COMPANY PROFILE

Berk & Berk Management is a commercial and residential real estate management company based in South Jersey since 1985.

In 2015, we split from our parent company, Manhattan Management. As we continue to work alongside Manhattan Management, we are also developing our own real estate venture and expanding our business modules.

With a younger and predominantly female-led team, Berk and Berk continues to follow the basics of our founder, Harvey Berk, while adding a fresh new take on modern day real-estate.

At Berk and Berk Management we value teamwork, transparency, and exceptional customer service. While managing over 1,100 apartments and 150,000 SF of office space, we pride ourselves in making the rental experience simple and seamless. From lease signing, to move-in, and beyond, we work around the clock to build authentic relationships with our clients and continue to deliver the best service possible. Berk and Berk is ever-expanding and always seizing more opportunities, for both tenants and employees. Stop by our offices in Cherry Hill or Delran to meet our amazing teams and see what our company has to offer!

MISSION STATEMENT

“Providing Maximum Value for Our Residents by Cultivating Each Team Member’s Growth” is our mission statement. The key to our success is in the development of our management team and systems. Training is a continuous program with our company. Through our in-house seminars and educational assistance programs, our staff is constantly developing new processes to ensure our services are of the highest quality.
