RE: To rezone the properties known as 710 Perry Street; 213, 209, 201 West Commerce Road; and 715 Porter Street from the B-7 Mixed-Use Business District to the B-4 Central Business District.

ORD. OR RES. No. _____

PURPOSE: To rezone the properties known as 710 Perry Street; 213, 209, 201 West Commerce Road; and 715 Porter Street from the B-7 Mixed-Use Business District to the B-4 Central Business District.

REASON: The applicant is requesting to rezone the five parcels containing a combined .998 acres from the B-7 Mixed-Use Business District to the B-4 Central Business District to enable the property to be redeveloped at a higher density under the mixed-use form-based regulations permitted within the B-4 Central Business District.

RECOMMENDATION: In accordance with the requirements of the City Charter and the Zoning Ordinance, the City Planning Commission will review this request and make a recommendation to City Council. This item will be scheduled for consideration by the Commission at its December 2, 2019, meeting. A letter outlining the Commission's recommendation will be forwarded to City Council following that meeting.

BACKGROUND: The subject properties are located on the block fronted by Commerce Road between Perry Street and Porter Street and comprise a combined 0.998 acres. A single-story building housing contractors' offices is located at 710 Perry Street. The remaining parcels are used for contractor storage and

contain accessory shell type storage buildings. The properties are located within the Old South Planning District and are included in the Manchester Industrial National Historic District as well as the City's Enterprise Zone 1.

The subject property falls within a Downtown Urban Center Area of the Manchester District, as established by the Richmond Downtown Plan. Such areas are "characterized by higher density, mixed use development, typically arranged on a fine grained street network, with wide sidewalks, regular tree planting, and minimal setbacks." Specifically addressing Manchester, the Downtown Plan states, *Manchester will benefit greatly from new construction and the infill of its many vacant properties. Such infill will introduce new energy to the district by increasing the residential population, repairing the streetscape, and enhancing safety by providing 'eyes on the street.* The proposed B-4 Central Business District designation conforms to these recommendations.

The proposed rezoning will allow redevelopment of the properties at a greater density and currently allowed in under the current zoning classification. The B-7 Mixed Use Business District stipulates a maximum building height not to exceed five stories. The B-4 Central Business District does not have a specified maximum height limit. Maximum height is determined by requiring that no portion of a building shall penetrate an inclined plane originating at the centerline of each abutting street and extending over the lot at an inclination of one foot horizontal for each four feet vertical and provided, such inclined plane may be penetrated by a building wall adjacent to a street for a horizontal distance not exceeding 50 percent of the length of the property line along such street.

FISCAL IMPACT / COST: The Department of Planning and Development Review does not anticipate any impact to the City's budget for this or future fiscal years.

FISCAL IMPLICATIONS: Staff time for processing the request; preparation of draft ordinance; and publishing, mailing and posting of public notices.

RE: Applicant's Report for the Rezoning of 201 West Commerce Street and adjacent parcels from B-7 Business District to B-4 Business District

Dear Mr. Olinger,

Please accept this letter as the Applicant's Report for the Rezoning application for 201 West Commerce Road, 710 Porter Street, 209 West Commerce Road, 213 West Commerce Road, 710 Perry Street from the B-7 Mixed-use Business zoning district to the B-4 Central Business zoning district. With this application, Brent Graves of Manchester Properties LLC is petitioning City Council to rezone the property from the existing zoning regulations, which restrict the development of the industrial properties in terms height and parking requirements, to the higher density B-4 zoning district, which allows a mix of uses under the urban mixed-use form-based regulations found in that district.

Site

The proposed rezoning is for five contiguous parcels fronting West Commerce Street between Perry and Porter Street in the Manchester neighborhood. The subject properties are included in the Manchester Industrial National Historic District. These properties and the surrounding neighborhood are represented by the Manchester Alliance Association. The properties together are comprised of 0.998 acres. 710 Perry Street is currently improved with a one-story structure containing contractor offices. Please note, the 710 Perry Street parcel is shown divided into A and B sections on the plat enclosed. The

remaining adjacent parcels serve the business for outside storage with two shell storage structures as well.

Zoning Regulations

This application requests the removal of the transitional B-7 district so that these properties will be developed with the higher density allowed in the B-4 district. The inclusion of the properties to the B-4 Central Business district will allow for the redevelopment of the surface areas within the form-based regulations of the B-4 district. This will allow for a more vibrant, visually interesting neighborhood and streetscape along the major arterial and secondary streets.

The owner's intention is to redevelop the all parcels simultaneously with a mixed-use development consistent with B-4 regulations. The mixed-use development could provide below and above grade parking on-site, street level retail with an anchor tenant, office uses and residential units above under the proposed B-4 district.

In 2009 the City included Manchester in the Downtown Plan for the first time and subsequently rezoned the subject and surrounding properties. This is when the B-7 was put in place on this block and adjacent properties. The B-7 district is a mixed-use industrial district and was intended to be a transitional district that would slowly be replaced as the area transitioned from an industrial neighborhood to more of a mixed-use residential neighborhood. This transition has occurred in much of Manchester including properties across Hull Street, making up four city blocks in this neighborhood, that have been rezoned to B-4 in 2018.

This application requests the removal of the transitional B-7 district so that these properties will be designated similarly to those redeveloped in the neighborhood. This will allow for a more vibrant neighborhood and streetscape along this block.

Master Plan

The properties were included in the 2009 Downtown Plan, which recommends that they be developed consistent with the Urban Center Character Area. The Urban Center Character Area calls for higher density, mixed-use development, typically arranged on a fine-grained street network, with wide sidewalks, regular tree planting, and minimal setbacks.

Specifically addressing Manchester, the Downtown Plan states, "Manchester will benefit greatly from new construction and the infill of its many vacant properties. Such infill will introduce new energy to the district by increasing the residential population, repairing the streetscape, and enhancing safety by providing 'eyes on the street'." (page 4.33)

The more recently developed Riverfront Plan designates the portion of the subject properties included in the plan for future development, stating, "The Plan anticipates incremental redevelopment of under-utilized parcels and languishing former industrial sites. Development strategies should favor mixed use, with an emphasis on street level retail, where appropriate. The fundamental emphasis of redevelopment along the Riverfront is to intensify pedestrian activity at street level through infill development with sufficient density to be an attractor and destination of activity. Greater density

reinforces urban character, provides for an increase in pedestrian activity, resulting in a safer and more vibrant city." (p. 11).

The type of development and mix of uses that would be permitted under the proposed B-4 district is consistent with the recommendations found for the area in the Downtown Plan and the density supported by the Riverfront Plan.

City Charter Conditions

We trust that you will agree with us that the development of the site would be better suited under the regulations in the B-4 Central Business district and that the rezoning meets the City Charter considerations to be observed in the alteration of zoning regulations.

Thank you for your consideration of this application. Please contact me at lory@markhamplanning.com or (804) 248-2561 if you have any questions or require additional materials to process the application.

Very Truly Yours,
