Special Recreation Management Areas

PHYSICAL COMPONENTS				
	Quali	ties of the Landscape		
Physical Component	Primitive	Backcountry	Frontcountry	
Remoteness	Adjacent to primitive motorized routes. No routes are present.	Portions adjacent to paved highway. Primitive motorized routes and mechanized routes with natural surfacing are present.	Adjacent to paved highway. County roads, primitive motor- ized routes, and mechanized routes with natural surfacing are present.	
Naturalness	Undisturbed, natural appearing landscape.	Mostly natural landscape with some livestock grazing modifications.	Landscape partially modified but development does not overpower the natural landscape.	
Facilities	No developed trails. No structures present.	Mix of designated dispersed campsites, constructed trails and unmaintained primitive routes. Trail structures consist of infre- quent directional and regulatory signs.	Trailhead facilities consist of designated dispersed campsites, fenced parking and interpretive kiosks. Trail structures consist of fre- quent directional and regulatory signs.	

SOCIAL COMPONENTS				
	Qualitie	es Associated with Use		
Social Component	Primitive	Backcountry	Frontcountry	
Contacts (average for other groups)	0 to 2 encounters per day.	0 to 5 encounters per day and designated trails.	1 to 6 encounters per day on primitive roads and designated trails.	
Group Size (aver- age for other groups)	1 to people per group.	1 to 4 people per group.	2 to 8 people per group.	
Evidence of Use	No alteration of the natural terrain. Footprints only observed. Sounds of people rare.	Alteration of the natural terrain limited to primitive roads, des- ignated trails, and user-created trails. Sounds of people and traffic infrequent.	Alteration of the natural ter- rain consists of graded roads, primitive roads and designated trails with some widening of the tread and impacts to vegetation observed. Sounds of people and traffic fre- quently heard.
