TENANT PROFILE

Oscar Ramirez arrived in Southern California from Peru in 1995 and learned the restaurant trade working at P.F. Chang, the Cheesecake Factory and California Pizza Kitchen. He saved money and opened his restaurant in 2010. The best part of the job: meeting different people, he says, and he gets to meet many working 8:30 a.m. to 9 p.m. every day.

Market Drivers

Local Economy

The economic base has changed over the years. Oil extraction created a boom and this was a Navy town for many years before the base closed. The aerospace industry played an important role. Douglas Aircraft Company (later McDonnell Douglas and now part of Boeing) had plants at the Long Beach Airport where they built aircraft for World War II, and later built DC-8s, DC-9s, DC-10s, and MD-11s. Boeing built the Boeing 717 until 2006 and the C-17 Globemaster III strategic airlifter plant is scheduled to close. Even after greatly reducing the number of local employees in recent years, Boeing is still the largest private employer in the city. Polar Air Cargo, an international cargo airline, was formerly based in Long Beach. TABC, Inc., a part of Toyota, makes a variety of car parts, including steering columns and catalytic converters, in Long Beach.

AREA SNAPSHOT

DTLB LOCATION & COMMUTE

Located between Los Angeles and Orange County, Downtown Long Beach is truly the heart of Southern California. The area is easily accessible from the 710 and 405 freeways, not to mention Metro access directly from Downtown Los Angeles. Additionally, Long Beach is centrally located between three prominent airports: Los Angeles International (LAX), John Wayne Airport (SNA), and our very own Long Beach Airport (LGB). Whether it's for business, pleasure, or friends and family, Downtown is the place to be!

LB AIRPORT

Long Beach Airport (LGB) is the best of both worlds when it comes to air travel, combining the outstanding service and access of a regional airport with state-of-the-art amenities and security – not to mention it's less than 7 miles from Downtown Long Beach! Since 1941, the airport's main terminal has served the surrounding community, and in 2020 the City of Long Beach approved a Terminal Improvement Plan valued at \$80 million. The Plan is set to continue through 2022, and includes improvements to the baggage claim, rental car pick-up/drop-off facility, and the Terminal itself. In 2021, LGB had 2.1M passengers, doubling from the year previous.

The Port of Los Angeles, also called America's Port, is a seaport managed by the Los Angeles Harbor Department that occupies 7,500 acres (3,000 ha) of land and water along 43 mi (69 km) of waterfront and adjoins the separate Port of Long Beach. The port is located in San Pedro Bay in the San Pedro and Wilmington neighborhoods of Los Angeles.

The Port of Los Angeles supports employment for 529,000 people throughout the five-county region and 1.6 million worldwide. The cargo coming into the port represents approximately 20% of all cargo coming into the United States.
