West Central

Synopsis

The West Central submarket is a critical infill region of Las Vegas, bounded by the I-15 to the east and the master-planned Summerlin community to the west, nestled between the Northwest and Southwest submarkets. This area is defined by a unique architectural tapestry, blending newer suburban neighborhoods with the historic “Rancho” corridor, famous for its vintage estate-style homes and mid-century modern residences along Rancho Boulevard.

As one of the most established and densely populated segments of the valley, it features a high concentration of multi-family housing and mature residential grids that maximize the available land. This density is anchored by robust retail hubs, most notably the world-renowned Chinatown along Spring Mountain Road, where a bustling three-mile corridor of diverse international dining and commerce serves as a major economic engine for the entire city.
