MIMICKING ITS ADJACENT INTERSECTION, **PLATFORM** IS THE NEXUS OF SOUTHTOWN'S MANY NEIGHBORHOODS AND DISTRICTS

ABOUT THE AREA

PLATFORM is tucked below San Antonio's downtown core in the Southtown neighborhood. This area is known for its interesting blend of districts, neighborhoods and businesses where locals live, work and play... a lot. PLATFORM is surrounded by the King William, Lavaca, Arsenal and Nathan neighborhoods along with the Blue Star, Lone Star and SoFlo districts. PLATFORM's vibrantly diverse surroundings range from restored Victorian homes, to mid-20th century reimaged uses, to contemporary homes, townhouses and apartments.

PLATFORM's adjacencies also take advantage of the San Antonio River's transition from its world-renowned urban core Riverwalk to the award-winning Mission Reach restored riparian ecosystem: 8 Miles of walking and biking trails connecting four of our Spanish colonial missions while also providing connections to the San Pedro Creek Culture Park.

ABOUT THE AREA CONTINUED

The King William District is the grand dame of Southtown. Established in the late 1800's, King William became the state's first National Historic District in 1967, spurring reinvestment and improvements in the latter part of the 20th century. This residential influx spawned many new businesses and restaurants, some of which have received culinary acclaim, others are merely neighborhood favorites that attract customers from all over the city.

Set between the San Antonio River and San Pedro Creek, Southtown's SoFlo is home to numerous condominiums and apartments, as well as one of San Antonio's recently designated historic neighborhood, the Nathan Historic District. With an abundance of residents, SoFlo has seen an influx of restaurants, breweries, coffee shops and other retailers including downtown's lone grocery store HEB.

IT ALL STARTED, AND CONTINUES, WITH ART

For 35 years, contemporary art lovers and creators have descended upon Southtown due to local developers banding together to give the arts community a thriving central heart in our city. Thus, Southtown would become the epicenter for contemporary arts adjacent to downtown San Antonio. Platform's neighbor, Blue Star Arts Complex, hosted its first contemporary art exhibit in 1986. Blue Star went on to kick-off First Friday in 1994, San Antonio's longest running art walk, which is now a Southtown experience throughout the neighborhood. Another local amenity supporting the arts is the recently opened Ruby City, which is the posthumous culmination of the efforts and interests of Linda Pace. Ruby City presents works from the Linda Pace Foundation Collection comprised of more than 900 paintings, sculptures, installations and video works.
