Los Angeles is a dynamic global city located in Southern California and serves as the economic engine of the West Coast. With a population exceeding 3.8 million, it is the largest city in California and the second-largest in the United States. The city is internationally recognized for its diverse industries, cultural landmarks, and strategic infrastructure.

The Port of Los Angeles, located in the San Pedro Bay, is the busiest container port in the United States and a critical hub for international trade. Adjacent to the Port of Long Beach, this combined port complex handles over 40% of the nation's containerized imports, making it a vital asset for industrial and logistics operations. The San Pedro area, once known primarily for its fishing and naval heritage, has evolved into a vibrant mixed-use
