CM1 ZONING INFORMATION

The CM1 (Corridor Mixed Use) zoning district in Minneapolis is designed to promote active, pedestrian-oriented commercial corridors with a mix of residential, retail, office, and institutional uses. It supports moderate-density development that complements surrounding neighborhoods while enhancing the vibrancy and accessibility of key city corridors.

CM1 allows for a variety of commercial uses including restaurants, retail shops, professional offices, and service-oriented businesses, along with multifamily residential development. The district is ideal for small to mid-scale mixed-use buildings and encourages ground-floor activation and transit-friendly design.

The CM1 designation provides flexibility and development potential in well-connected areas, making it an attractive option for investors, developers, and owner-users seeking to capitalize on urban growth patterns in Minneapolis.
