

- The City of New Fairview is amidst a strong wave of growth. As of 2022, the population for the City grew 31.2% to a total of approximately 2,060.
- With the City's approval of many new residential subdivisions (including 2 very large projects, with one bringing over 5,000 residences and another with over 2,100 residences) the expectation is that the population will more than double within the next 3-5 years.
