PROPERTY SUMMARY

Opportunity to purchase a 2,965 SF industrial building on a 61,855 SF industrial lot, with 55,220 SF fenced. This versatile property is ideal for various industrial and outdoor storage uses. It presents an excellent opportunity for an owner-user or a developer looking to generate passive income on the dirt. The income from the outdoor contractor storage or Boat & RV storage lot can significantly offset carrying costs.

For developers, this property offers a great covered land play, providing substantial income during the entitlement process for a higher and better use. It's an ideal site for constructing industrial buildings or mini-storage facilities. See page 6 for an example of what could be built on-site, subject to City approval.
