## **Investors Take Note — Operational Luxury Tiny Home Retreat on 6.6 Acres With 92%+ Occupancy & Huge Expansion Potential**

Welcome to an extraordinary investment opportunity: a fully operational, highly profitable Luxury Tiny Home Retreat set on 6.6 private acres—inspired by the same elevated experience you'll find at Green House Getaways, where modern design meets nature, and guests escape into a world of warmth, relaxation, and refined simplicity.

This property already features beautifully crafted luxury tiny homes with stunning interiors, panoramic glass elements, warm natural wood, cozy lofts, spa-style bathrooms, high-end lighting, intimate fire pits, and immersive outdoor living spaces. Guests love the feeling of being wrapped in nature without sacrificing comfort—resulting in an impressive 92%+ year-round occupancy and a proven track record of strong nightly rates.

Even better? It requires minimal management, making it an ideal investment for both seasoned operators and first-time hospitality owners.

But the real magic lies in the untapped upside...

## A Rare Chance to Triple the Revenue-Generating Footprint!

With 6.6 acres of prime, usable land, you have the ability to dramatically expand the existing retreat, potentially tripling the current number of luxury tiny homes. Imagine adding more units designed with the same aesthetic guests rave about—expansive glass fronts, modern timber interiors, hot tubs under the stars, private decks, and curated outdoor amenities.

The demand is already here. The brand identity, guest satisfaction, and booking consistency are proven. The platform is in place. All that's needed is an investor with the vision to scale it.
