The following table of land uses identifies which uses of land, buildings, or structures are permitted by right, permitted subject to review, or permitted subject to the issuance of a conditional use permit in the various zones. Uses permitted by right are indicated by a “P” in the appropriate column. Uses permitted only with approval from the appropriate authority are indicated by a “PR” in the appropriate column. Use permitted only with the issuance of a conditional use permit are indicated by a “CU.” A use which is not designated as a use permitted by right, a use permitted only with review, or a use permitted only with a conditional use permit in any zone is deemed to be a prohibited use in that zone.

Uses identified by a numerical code are identified in the North American Industry Classification System, 2002 (NAICS) as defined in Chapter 280.

When a use appears in more than one category of uses, all listed uses are allowed, except when specifically excluded.
