12. Nike Outlet
13. Harmons
14. Audi
15. Porsche
16. Megaplex

## WHAT'S THE POINT?

Utah's Point of the Mountain also known as "Silicon Slopes" refers to the cluster of information technology, software development, hardware manufacturing and research firms that have emerged along the Wasatch Front. Utah is nationally recognized as a leading technology hub. In fact, the demand for workers among the growing list of tech companies is out-pacing the supply of the Utah workforce.

Utah is ranked #1 one in innovation and entrepreneurship, #2 in high-tech performance, and #3 in economic performance by the U.S. Chamber of Commerce Foundation.

Tech companies have flocked to Utah for its lower taxes, more flexible regulatory environment, and a well-educated, multilingual workforce. There is a strong mixture of local homegrown startups (Domo, Ancestry, Qualtrics, Pluralsight, etc.), as well as major Fortune 500 companies (Adobe, Microsoft, Oracle, Symantec, etc.)

## THE POINT ACCOLADES:

- > Forbes has ranked Utah as the Best State for Business 8 times since 2010
- > Utah's tech workforce is fed by major technology and research universities: University of Utah, Brigham Young University, and Utah Valley University, all of which offer programs intended to develop young entrepreneurs
- > Utah has high concentrations of Software Developers, Web Developers, Computer and Information Research Scientists, and many other IT related occupations
- > Utah is one of the top states in the nation for software and information technology employment with an employee base of over 66,000 people
- > According to Wallethub, Salt Lake City ranks 7th among the best U.S. cities for STEM (Science, Technology, Engineering, and Math) jobs, beating out Chicago, New York City, San Jose, and other prominent "tech forward" towns
