

MIDTOWN COMMERCE CENTER

FOR SALE OR LEASE - 2665 HIGHLAND DRIVE, LAS VEGAS, NV 89109

Executive Summary

INTRODUCTION

Cushman & Wakefield is pleased to present a single-building acquisition opportunity at Midtown Commerce Center, totaling $\pm 6,492$ square feet in the heart of Las Vegas. The property offers a flexible industrial configuration well-suited for investors seeking stable cash flow or an owner/user pursuing a centrally located operational headquarters.

Strategically positioned with strong visibility and immediate access to the I-15 corridor and Sahara Avenue, the building is minutes from Las Vegas Strip, Downtown Las Vegas, and Harry Reid International Airport—placing it within one of the most connected and supply-constrained submarkets in the valley.

Surrounded by a dense concentration of established industrial owner/users, the property benefits from strong underlying fundamentals and long-term demand drivers. Originally configured as traditional industrial product, the building has been adapted to accommodate creative and flex users, attracting tenants in the digital, technology, and entertainment sectors seeking functional space with character.

With limited developable land remaining in the immediate area and minimal competing inventory, the asset is well positioned to capitalize on continued tenant demand, rental growth, and long-term appreciation. The property also presents future repositioning or redevelopment potential, offering strategic optionality for both investors and owner/users.

Investment Highlights

STRATEGIC REDEVELOPMENT OPPORTUNITY

Positioned immediately adjacent to Las Vegas Strip and the I-15 corridor, the property occupies highly coveted mixed-use real estate within Las Vegas. The site offers meaningful long-term upside through potential future redevelopment in one of the valley's most dynamic corridors.

FLEXIBLE EXIT STRATEGY

Configured on a single parcel with a versatile building layout, the asset allows for multiple exit strategies, including owner/user conversion, single-tenant net lease execution, multi-tenant stabilization, or recapitalization upon value creation.

STRONG MARKET DYNAMICS

Located within the Central submarket—historically one of the tightest industrial submarkets in Las Vegas—the property benefits from low vacancy and high barriers to entry. As a largely built-out area with limited new industrial construction, the asset is well-positioned to capture sustained tenant demand and long-term rental growth.

ATTRACTIVE, FUNCTIONAL DESIGN

Extensively upgraded and renovated, the building features high-end office finishes, enhanced power capacity, and above-standard HVAC and evaporative cooling systems serving the warehouse area. The improvements provide immediate plug-and-play functionality for investors or owner/users seeking a move-in-ready solution.
