# 33723A King Road

Abbotsford, BC

## Opportunity

To acquire a 2 unit 12,297 SF standalone industrial building just off of McCallum Road and Highway 1. The building offers a retail/office/showroom component at the front with warehouse in the rear. Existing mezzanine space could be removed to increase the maximum clear height in the warehouse portion. The building was upgraded in 2023 with a new roof, fascia, and paint. Ample parking is available along with 12' grade loading doors in the rear.

The property is zoned I2 - General Industrial and located in a 4 lot non-conforming bare land strata. The building is currently demised (one currently leased) as 2 units but the building can be reconfigured to accommodate between 1 to 3 separate units. All units would have their own electrical panel and entrance.

## Location

Located in the "U District", this property is centrally located near Highway 1, King Road Industrial Park, University of the Fraser Valley, Abbotsford Entertainment Centre, Abbotsford Airport and new residential development.

# CURRENT USE & FUTURE REDEVELOPMENT

## Abbotsford Industrial Market

The industrial real estate market in the Fraser Valley, particularly in Abbotsford, remains active as demand for new and larger facilities continues to grow. Businesses are drawn to Abbotsford due to its strategic location, strong labor pool, and relatively affordable industrial land compared to Metro Vancouver. This area's proximity to major transportation routes and hubs such as Highway 1, Highway 10, Highway 17, U.S. Border, Delta Port, and Vancouver International Airport continue to make the Abbotsford industrial market one of the region's most desirable.

## Redevelopment Potential

The subject property is situated within the "U District" Neighbourhood Plan and designated Urban 1 - Midrise. The Midrise designation focuses on wood-frame construction condo buildings up to 6 storeys in height. This land use is intended for areas near transit, amenities, and urban centers, making it ideal for higher-density projects that support the city's growth strategy. The designation encourages compact, walkable communities and offers an attractive opportunity for developers to meet rising housing demand.
