Prominent exposure signage opportunities

High-Profile Location

Located just off Whitemud Drive, a main thoroughfare which sees over 100,000 vehicles per day.

This pylon signage opportunity will provide your office with direct exposure to over 10,000 vehicles per day on 97 Street.

Ownership Benefits. Invest in your property. Why it makes sense.

Unbelievable Value

Whitemud Business Centre units are priced to sell. Take advantage of buying Class A units at unbelievable pricing.

Free Parking

Never pay for parking ever again. With 371 stalls available, your clients and staff will never have to worry about parking expenses.

Unparalleled Location and Access

By being directly off the Whitemud, nobody will complain about coming to your office.

Modern Amenities

With a brand new gym and courtyard amenity, your employees may never want to go home.

Competitive Financing Solutions Available

Take advantage of creative financing solutions from KV Capital.

Build Equity

Why lease when you can build equity for your retirement. Invest in your bank account not the landlord's.

Control Your Destiny

Owning means no more landlord favoured lease agreements, no more operating costs reconciliations, no more rental rate hikes.

Owner-occupied financing

Capitalize on both the stability and flexibility your business needs to thrive.

What is owner-occupied financing?

In contrast to many commercial real estate transactions where a property is purchased with the intention of generating rental or investment income, owner-occupied financing is a beneficial capital solution to consider if your business owns the office space or building that you operate out of.

The primary advantage of owner-occupied financing is that you tend to receive more favourable financing terms and conditions including lower down payment requirements and less stringent reporting criteria.

Is owner-occupied financing right for you?

If your business has been in operation for at least 24 months, you will be eligible for a variety of owner-occupied financing options. If your business is new, we can provide guidance and advice for the best financing model for you.

How will
owner-
occupied
financing
help you
achieve
your goals?

Access Higher Leverage

With up to 100% financing, you will preserve working capital to be deployed in your business for other assets such as equipment purchases.

Reduce Monthly Payments

By leveraging longer amortization periods, repayment of your mortgage loan can be spread out over a longer period of time, which lowers payments each month.

Tap Into Flexible Conditions

Owner-occupied financing offers a variety of customizable conditions for your unique needs such as principal postponement periods and options for the completion of tenant improvement work.

Build Equity

Contribute your monthly office space payments as a long term investment and increase the potential for your business' future growth opportunities.
