**PHASE I ENVIRONMENTAL SITE ASSESSMENT
42.45 ACRES OF UNDEVELOPED LAND
SANTA FE, GALVESTON COUNTY, TEXAS 77517**

Presented here is the Phase I Environmental Site Assessment (ESA) report for the vacant subject property with a description as follows:

Tract: 42.4504 acres out of land out of Lot 1, Block 80 in the I & GN Railway Survey Number 16, 17, 18 and 19, Town of Arcadia, Galveston County, Texas (GCAD # 230071).

This study was authorized by Mr. Norm Hord of Moody National Bank in April of 2022.

Site Location

The subject property is located north of Highway 6 and west of Elm Street, Santa Fe, Texas. The property contains no structures, the tract is covered in grass. The property was used for agricultural usage to grow hay. The subject property is located in a predominate residential setting. A site plan is presented on Figure 1.

Scope of Study

The objective of the study was to assess the subject property for possible *recognized environmental conditions* in general accordance with the *Standard Practice for Environmental Site Assessments: Phase 1 Environmental Site Assessment Process* (ASTM E 1527). *Recognized environmental conditions* are defined by the ASTM standard as:

“ . . . the presence or likely presence of any hazardous substances or petroleum products on a property under conditions that indicate an existing release, a past release, or a material threat of release of any hazardous substances or petroleum products into structures on the property or into the ground, groundwater, or surface water of the property.

We accomplished these objectives by conducting the following tasks:

1. Reviewing environmental records, physical setting, historical aerial photographs, and historical site ownership records.
2. Conducting a site and area reconnaissance.
3. Checking for former oil and gas wells on or near the subject property.
4. Checking for pipelines that may traverse the subject property.

Records Review

The purpose of the records review was to obtain and review specified and reasonably ascertainable records for possible recognized environmental conditions in connection with the subject property. The records reviewed included selected environmental record sources published by regulatory agencies, physical setting sources, historical aerial photographs and historical ownership records.

Environmental Record Sources

In accordance with ASTM E 1527, the environmental record sources included a review of state and federal listings for documented sites located within a prescribed search radii of the subject property. A summary of the sources reviewed and the dates of the listings are presented as follows:

Record Source	Minimum Search Distance	Database Contents	Database Date
National Priorities List (NPL)	1.0 mile	The NPL is a priority subset of the CERCLIS list (see below for CERCLIS), also known as Superfund. It is an EPA list of uncontrolled or abandoned hazardous waste sites based upon a score, which the site receives from the EPA Hazard Ranking System. Sites listed here include delisted NPL sites.	March 2022
Comprehensive Environmental Response, Compensation, and Liability Information System (CERCLIS)	0.5 miles	List of sites the EPA has investigated or is currently investigating for potential hazardous substance contamination for possible inclusion on the NPL.	March 2022
No Further Remedial Action Planned (NFRAP)	0.5 miles	Indicate a CERCLIS site that was designated "no further remedial action planned" by the EPA.	March 2022
Resource Conservation and Recovery Information System – Treatment, Storage or Disposal (RCRA TSD)	1.0 mile	Facilities that treat, store, or dispose of hazardous waste compiled from the Resource Conservation and Recovery Information System (RCRIS), subject to corrective actions.	January 2022
Corrective Action (CORRACT)	1.0 mile	RCRA sites currently under corrective action.	January 2022
Resource Conservation and Recovery Information System – Generators (RCRA G)	0.25 miles	Persons or entities that generate hazardous waste.	January 2022
Emergency Response Notification System (ERNS)	0.25 miles	List of verified and reported hazardous substance releases or spills.	February 2022

Record Source	Minimum Search Distance	Database Contents	Database Date
Texas Voluntary Cleanup Program (TXVCP)	0.5 miles	Contaminated Texas sites where cleanup is conducted voluntarily.	January 2022
Innocent Owner/Operator Program (TXIOP)	0.5 miles	List of contaminated sites where the land owner has been deemed not liable for contamination from a source or sources not located on the property and who did not cause or contribute to the source of contamination.	January 2022
Texas State Superfund (TXSSF)	1.0 mile	A list of sites that the State of Texas has identified for investigation or remediation. Sites are reviewed for potential upgrading to CERCLIS.	February 2022
TCEQ Solid Waste Facilities (TXLF)	1.0 mile	List of solid waste disposal facilities registered and tracked by the TCEQ Solid Waste Division. Includes disposal sites, transfer stations, and processing stations.	March 2022
Unauthorized and Unpermitted Landfill Sites (LFUN)	0.5 miles	Unauthorized sites that have no permit and are considered abandoned.	March 2022
Leaking Underground Storage Tanks (TXLUST)	0.5 miles	Sites with reported spills or releases from underground storage tanks.	February 2022
Texas Underground Storage Tanks (TXUST)	0.25 miles	Sites with underground storage tanks that have been permitted and registered with the state.	February 2022
Texas Above Ground Storage Tanks (TXAST)	0.25 miles	Sites with aboveground storage tanks that have been permitted and registered with the state.	February 2022
Texas Spills List (TXSPILL)	0.25 miles	Sites where emergency response is needed for cleanup of toxic substances.	January 2022
Brownfield (BRNFD)	0.5 miles	The expansion, redevelopment, or reuse of property that may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant.	February 2022
Dry Cleaner (DRYC)	0.5 miles	List of all dry cleaning drop stations and facilities registered with the TCEQ.	February 2022
Indian Reservation Underground Storage Tanks	0.25 miles	Permitted underground storage tanks on Indian Land.	February 2022

One (1) regulatory agency finding was identified within the search radius. The subject property was not identified in the search. No facility was identified adjacent to the subject property. One facility at an approximate distance of ½ mile west was identified as an underground storage tank facility. The facility is in regulatory compliance. A copy of the environmental database search along with the environmental search map is presented in Attachment A.

Physical Setting

The physical setting was assessed by reviewing the USGS 7.5 minute topographic map. The USGS 7.5 minute topographic map is presented as Figure 2.

The topographic map confirms the location of the subject property and its relative proximity to the area features. The topography is moderately flat, with sparse development surrounding the subject property. Highway 6 is depicted south of the subject property. No other major features exist.

Historical Aerial Photographs

Aerial photograph enlargements were reviewed to evaluate historical land use and associated features that may be linked with recognized environmental conditions. A summary of the aerial photograph review is presented as follows:

Date	Source	Scale	Observations
1955	USGS	1 inch = 700 ft	The subject property is developed as a residence. Residential development is sparse.
1969	USGS	1 inch = 700 ft	The subject property is developed as a residence. Residential development is sparse.
1971	NASA	1 inch = 700 ft	The subject property is developed as a residence. Residential development is sparse.
1983	USGS	1 inch = 700 ft	The subject property is developed as a residence. Residential development is sparse.
1995	USGS	1 inch = 700 ft	The subject property is vacant. Residential development is sparse.
2004	NAIP	1 inch = 700 ft	The subject property is vacant. Residential development is sparse.
2014	NAIP	1 inch = 700 ft	The subject property is vacant. Residential development is sparse.
2020	NAIP	1 inch = 700 ft	The subject property is vacant. Residential development is sparse.

Review of the aerial photographs indicates a portion of the subject property has been developed as a residence as far back as the 1955 photograph. Sparse residential development in the area began prior to the 1955 photograph. Copies of the Historical Aerial photographs are included in Attachment B.

Historical Site Ownership Records

Review of the Historical Ownership Record would indicate that the subject property has been owned by individuals or as an investment instrument since 1929. The current owner of record is Evening Investors, LLC. No surface easements were found on the subject property. A copy of the Historical Chain of Title is presented in Attachment C.

Site and Area Reconnaissance

A site reconnaissance was conducted on April 28, 2022. The objective of the reconnaissance was to obtain information indicating the likelihood of recognized environmental conditions in connection with the subject property. H/ET personal visited the subject property and the surrounding area. Site photographs of the subject property were obtained and are included in Attachment D.

Site Features

Provisions in ASTM E 1527 indicate specific site information that is to be documented during the site reconnaissance, to the extent visually or physically observed. This information is presented as follows:

Site Features	Observations
Topography	The terrain appeared to be relatively flat.
Structures	No structures exist on the subject property.
Roads	Exterior roads are shown on Figure 1.
Potable Water Supply	N/A
Sewage Disposal	N/A
Hazardous Substances and Petroleum Products	No indications of hazardous substances or petroleum products were observed released or spilled on the subject property.
Storage Tanks	No tanks were present.
Odors	No strong, pungent, or noxious odors were noted.
Pools of Liquid	None
Drums and Containers	No drums containing hazardous materials or petroleum products were observed.
PCBs	None.
Pits, Ponds or Lagoons	No pits, ponds, or lagoons in connection with waste disposal or waste treatment were observed.
Stained Soil or Pavement	No areas of stained surface soils were observed.
Stressed Vegetation	No areas of stressed vegetation associated with hazardous substances or petroleum products were observed.
Solid Waste	No solid waste was observed.
Wastewater	No wastewater discharges were observed.
Wells	No water well was observed.
Septic Systems	No septic system was observed.

Adjoining Land Use

Observations of adjoining land use from our reconnaissance are summarized as follows:

Location	Adjoining Land Use
North	Residential
East	Residential
South	Residential
West	Residential

Oil and Gas Wells

No oil or gas wells were observed on or near the subject property during the site reconnaissance.

Pipelines

Review of the Texas Railroad Commission public mapping system and observations from the site reconnaissance does not indicate the presence of pipelines on the subject property.

Interview

No interview was conducted in connection with this environmental site assessment. No site personnel were contacted for this review.

Findings

The pertinent findings of the Phase I Environmental Site Assessment (ESA) of the 42.45 acres of undeveloped land in Santa Fe, Galveston County, Texas 77517 and identified as:

Tract: 42.4504 acres out of land out of Lot 1, Block 80 in the I & GN Railway Survey Number 16, 17, 18 and 19, Town of Arcadia, Galveston County, Texas (GCAD # 230071) are summarized as follow:

1. One (1) regulatory agencies finding was identified within the search radius. The subject property was not identified in the environmental search. No property was identified adjacent to the subject property. One facility was identified, but is not of environmental concern to the subject property.
2. The subject property is moderately flat, consistent to area features.
3. Review of the aerial photographs indicates the site has been developed as a residential tract in the southern portion as far back as 1955.
4. Historical ownership records indicate that the subject property has been owned by individuals or as investment instruments since 1929. The current owner is listed as Evening Investors, LLC. The latest survey reflects the subject property as:

Tract: 42.4504 acres out of land out of Lot 1, Block 80 in the I & GN Railway Survey Number 16, 17, 18 and 19, Town of Arcadia, Galveston County, Texas (GCAD # 230071).

5. Observations from our site reconnaissance show the subject property is currently undeveloped and vacant.
6. No large quantities of hazardous or petroleum substances were reported being spilled or released on the subject property.
7. Our reconnaissance would indicate the subject property is located in an area of residential development.
8. No oil or gas wells were identified on the subject property through the Rail Road Commission Maps.
9. No pipeline easements are recorded on the subject property.

Conclusions

The findings of the Phase I Environmental Site Assessment (ESA) for the subject property referenced as 42.45 acres in Santa Fe, Galveston County, Texas 77517, identified as:

Tract: 42.4504 acres out of land out of Lot 1, Block 80 in the I & GN Railway Survey Number 16, 17, 18 and 19, Town of Arcadia, Galveston County, Texas (GCAD # 230071) would indicate that no recognized environmental conditions associated with the subject property were identified. It is our opinion that the risk associated with this subject property is low. No further study is recommended for the subject property referenced as 42.45 acres in Santa Fe, Galveston County, Texas 77517 at this time.

Limitations

Phase I Environmental Site Assessment (ESA) was performed in general accordance with the scope and limitations of ASTM E 1527. No soil or groundwater sampling was conducted for this report.

In accordance with ASTM E 1527, the following items are considered beyond the Phase I ESA work scope and were therefore excluded from our study.

- | | |
|--------------------|---------------------------------|
| ➤ Lead-based paint | ➤ Asbestos containing materials |
| ➤ Wetlands | ➤ Lead in drinking water |
| ➤ Geologic faults | ➤ Archaeological sites |
| ➤ Radon | ➤ Endangered species |

Standard Care

This study has been conducted using appropriate inquiry of reasonably ascertainable information consistent with good commercial and customary practice. It should be noted that no environmental assessment can wholly eliminate uncertainty regarding the potential for recognized environmental conditions at the subject property. Therefore, no warranty or guarantee is made regarding the absence of recognized environmental conditions.

Report Distribution

This report was prepared for the sole and exclusive use by Mr. Norm Hord of Moody National Bank, or their authorized representative as an instrument of service. This report shall remain the property of Hydrogeologic/Environmental Testing. No third party may use or rely upon the information provided in this report without our expressed written consent.

Preface

This document of environmental concerns near Corner of Hwy 6 and Elm Street, Santa Fe, TX reports findings of the TelALL data search, prepared on the request of H/ET.

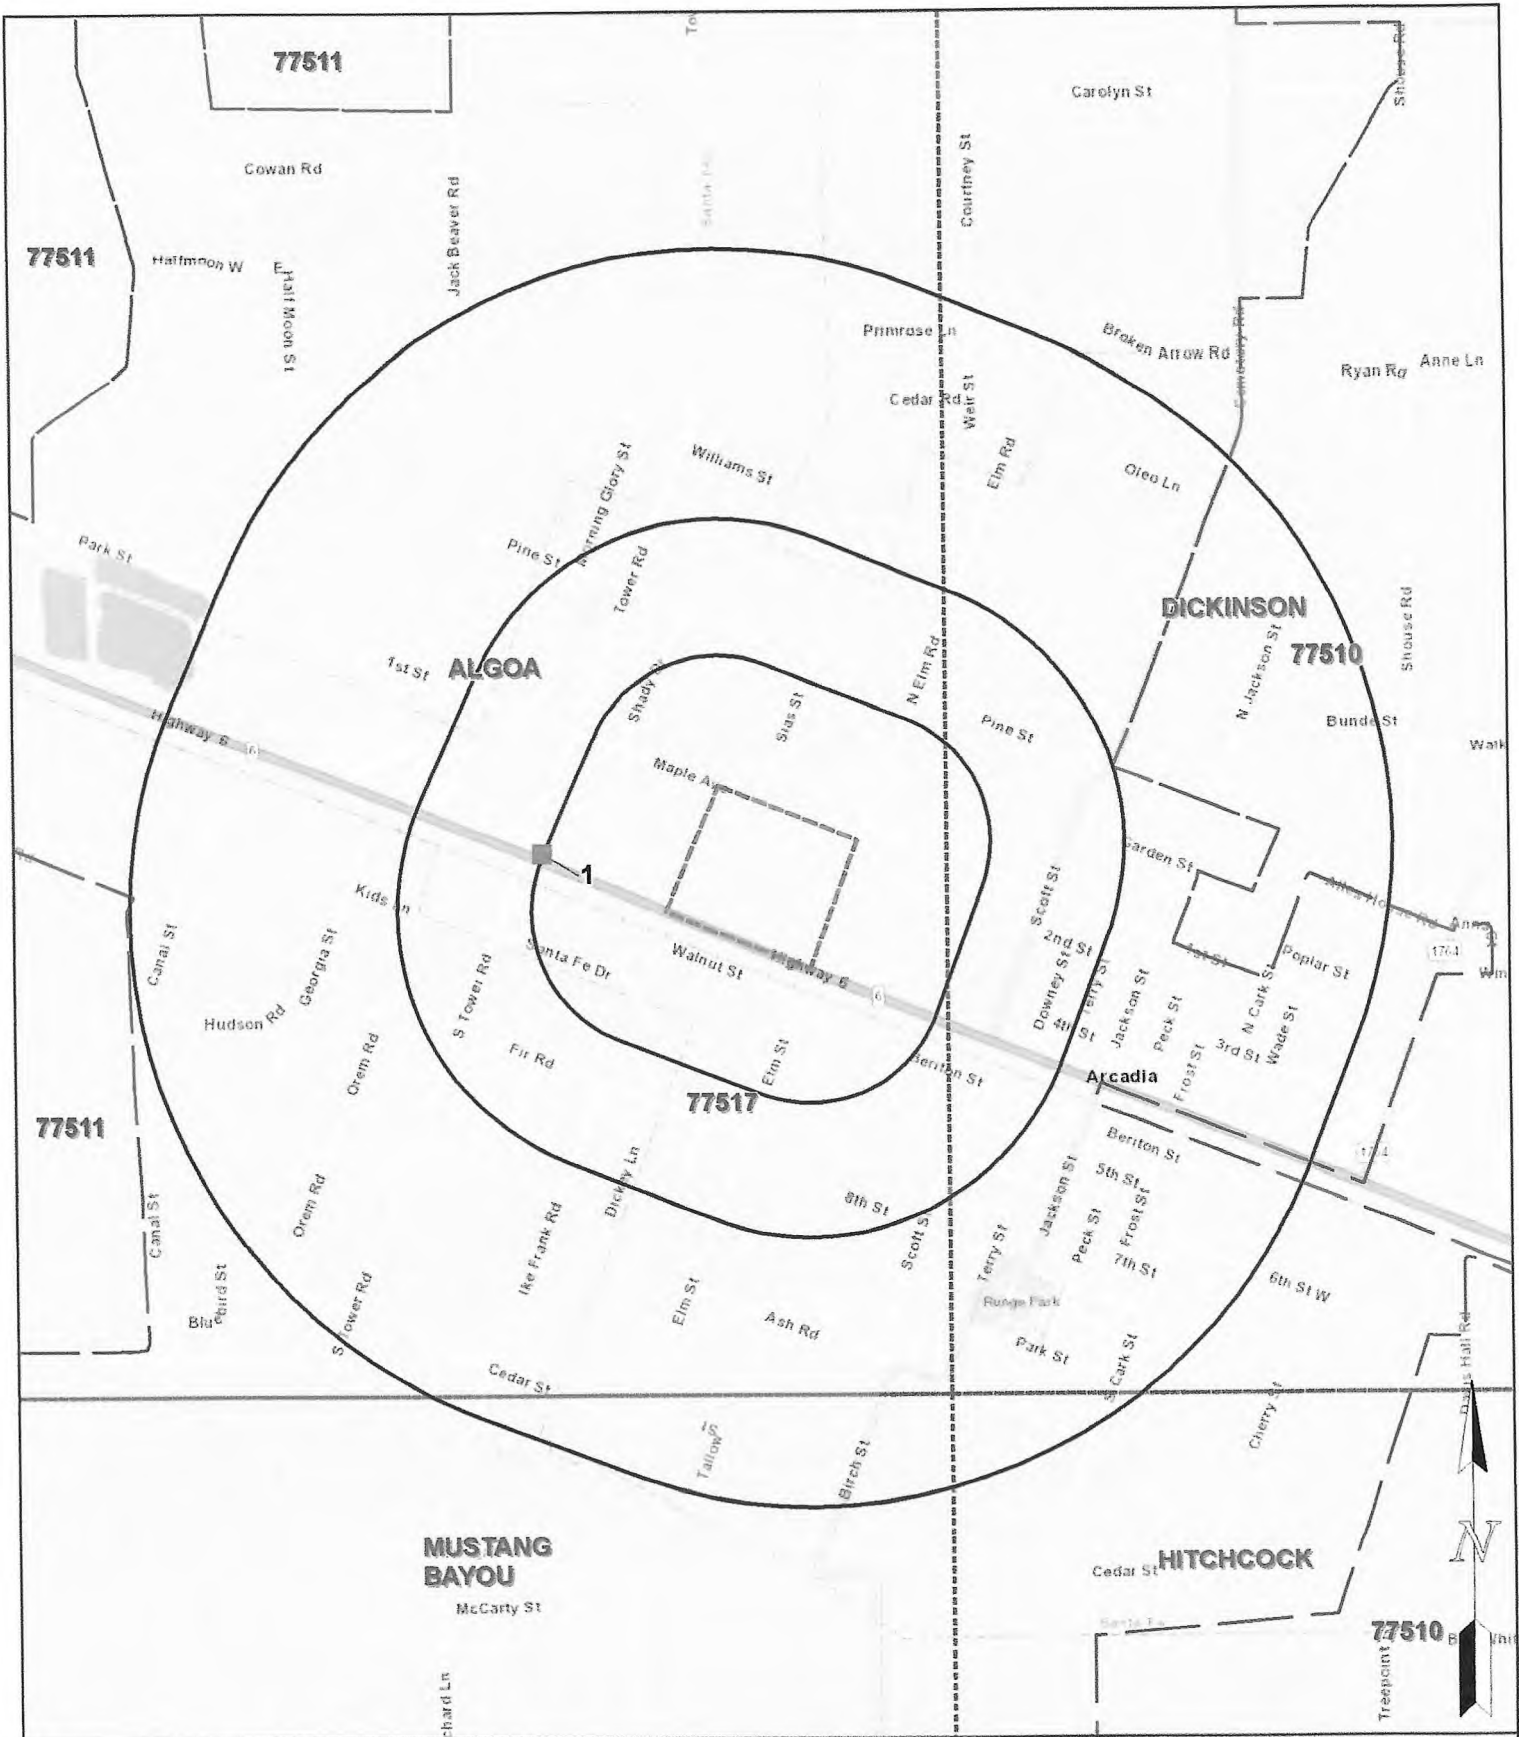

TelALL Corporation (TelALL) has designed this document to assist in complying with AAI and ASTM standard E 1527 - 13 (Accuracy and Completeness) and has used all available resources, but makes no claim to the entirety or accuracy of the cited government, state, or tribal records. Our databases are updated at least every 90 days or as soon as possible after publication by the referenced agencies. The following fields of governmental, state, and tribal databases may not represent all known, unknown, or potential sources of contamination to the referenced site. Many different variables effect the outcome of the following document. TelALL maintains extremely high standards, and stringent procedures that are used to search the referenced data. However, TelALL reserves the right at any time to amend any information related to this report. If there is a need for further information regarding this report, or for any customer support please call TelALL at 800.583.0004 for assistance.

This report is divided into the following components:

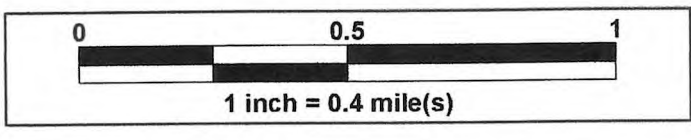

MAP	Identified geocodeable findings relative to this data search.
SUMMARY 1	Sorting of the identified sites by distance from the subject site.
FINAL	A description of each database and a detailed explanation of findings.

NPL**National Priority List**

NPL is a priority subset of the CERCLIS list. (See CERCLIS, below) The Cerclis list was created by the Comprehensive Environmental Response, Compensation and Liability Acts (CERCLA) need to track contaminated sites. CERCLA was enacted on 12/11/80, and amended by the Superfund Amendments and Reauthorization Act of 1986. These acts established broad authority for the government to respond to problems posed by the release, or threat of release of hazardous substances, pollutants, or contaminants. CERCLA also imposed liability on those responsible for releases and provided the authority for the government to undertake enforcement and abatement action against responsible parties. Institutional/Engineering Controls searched. Delisted NPL sites are included.

CERCLIS**Comprehensive Environmental Response, Compensation, and Liability Information System**

CERCLIS is the official repository for site and non-site specific Superfund data in support of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). It contains information on hazardous waste site assessment and remediation from 1983 to the present. CERCLIS information is used to report official Superfund accomplishments to Congress and the public, assist EPA Regional and Headquarters managers in evaluating the status and progress of site cleanup actions, track Superfund Comprehensive Accomplishments Plan (SCAP), and communicate planned activities and budgets. Institutional/Engineering Controls searched.

RCRA TSD

Resource Conservation and Recovery Information System - Treatment Storage or Disposal

Resource Conservation and Recovery Information System (RCRIS) Under the Resource Conservation and Recovery Act (RCRA), generators, transporters, treaters, storers, and disposers of hazardous waste as defined by the federally recognized hazardous waste are required to provide information concerning their activities to state environmental agencies, who in turn provide the information to regional and national U.S. EPA offices. The RCRA TSD (Treatment Storage or Disposal) is a subset of the RCRIS list. RCRA TSD tracks facilities that fall under the Treatment Storage or Disposal classification.

RCRA-G

Resource Conservation and Recovery Information System - Generators

Resource Conservation and Recovery Information System (RCRIS) Under the Resource Conservation and Recovery Act (RCRA), generators, transporters, treaters, storers, and disposers of hazardous waste as defined by the federally recognized hazardous waste, are required to provide information concerning their activities to state environmental agencies, who in turn provide the information to regional and national U.S. EPA offices. The RCRA-G (Generators) list is a subset of the RCRIS list. RCRA-G tracks facilities that fall under the generators or transporters classification.

CONDITIONALLY EXEMPT SMALL QUANTITY GENERATORS (CESQG) produce less than 100 kg per month of hazardous waste. SMALL QUANTITY GENERATORS (SQG) produce at least 100 kg per month but less than 1000 kg per month of hazardous waste. LARGE QUANTITY GENERATORS (LQG) produce at least 1000 kg per month of hazardous waste. Source: United States Environmental Protection Agency (EPA)

ERNS**Emergency Response Notification System**

ERNS supports the release notification requirements of section 103 of the Comprehensive Environmental Response Compensation, and Liability Act (CERCLA), as amended; section 311 of the Clean Water Act; and sections 300.51 and 300.65 of the National Oil and Hazardous Substances Contingency Plan. Additionally, ERNS serves as a mechanism to document and verify incident-location information as initially reported, and is utilized as a direct source of easily accessible data, needed for analyzing oil and hazardous substances spills.

TXVCP**Texas Voluntary Cleanup Program**

Created under HB 2296, The Voluntary Cleanup Program (VCP) was established on 09/01/95 to provide administrative, technical, and legal reasons to promote the cleanup of tainted sites in Texas. Since future lenders and landowners get protection from liability to the State of Texas for cleanup of sites under the VCP, most of the constraints for completing real estate deals at those sites are removed. As a result, many unused or under used sites may be restored to economically productive or community beneficial uses. After cleanup, the parties get a certificate of completion from the TCEQ which states that all lenders and future land owners who are not PRP's are free from all liability to the State. Institutional/Engineering Controls searched.

Parts of the above description were taken from the TCEQ/VCP Website (<http://www.TCEQ.state.tx.us/permitting/remed/vcp/>). The investigation phases are listed as INVESTIGATION, REMEDIATION, POST-CLOSURE, and COMPLETE. Contaminant Categories (PERC and BTEX). Source: Texas Commission on Environmental Quality (TCEQ)

TXIOP

Innocent Owner/Operator Program

The TX IOP, created by House Bill 2776 of the 75th Leg, provides a cert. to an innocent owner or operator if their property is contaminated as a result of a release or migration of contaminants from a source or sources not loc. on the prop., and they did not cause or contribute to the source or sources of contamination. Like the TxVCP Prog., the IOP can be used as a redevelopment tool or as a tool to add value to a contaminated prop. by providing an Innocent Owner/Operator Certificate (IOC). However, unlike the VCP release of liability, IOCs are not trans. to future owners/oper's. Future owners/oper's are eligible to enter the IOP and may rec. an IOC only after they become an owner or operator of the site.

*The above description were taken from the TCEQ/IOP Website
(<http://www.TCEQ.state.tx.us/permitting/remed/vcp/iop.html>).

COMMENTS: Subject tract, etal.

EASEMENTS, RIGHT OF WAYS, SURFACE LEASES, ENVIRONMENTAL LIENS AND ENVIRONMENTAL ACTIVITY USE AND LIMITATIONS AFFECTING THE SURFACE ESTATE OF THE SUBJECT TRACT:

None found.

****This report is subject to all LIMITATIONS AND DISCLAIMERS as stated herein:**

- The information contained herein, is to our best knowledge and belief, a correct showing of Deeds, Easements, Right-of-Ways, Surface Leases, Environmental Liens and Environmental Activity Use and Limitation (AUL) documents recorded in the Real Property records of the County Clerk of said county that affect the surface estate of the subject tract.
- Deeds, Easements, Right-of-Ways, Surface Leases, Environmental Liens and AULs are only checked on the exact spelling of the names that appear in the deed(s) on this report.
- Mineral and/or subsurface information may appear, but should not be considered as conclusive.
- The information contained herein is not an opinion of title and should not be considered as such (an opinion of title can be provided by a title insurance company or a real estate attorney);
- This report should not be relied upon to determine the status of title in connection with a conveyance or financial transaction regarding the property described herein;
- This information is provided to the client (addressee) for the client's sole use and benefit and may not be used or relied upon by any other party.
- Any assignment or attempted assignment of any rights of Client relating to this report shall terminate any and all liability of issuer;
- The information contained herein is based upon the records of the county clerk's office, and errors or inconsistencies do appear in those records;
- Provider shall not be liable for any amount in excess of the fee received from client for this report;
- Client accepts the risk for any incorrect information stated herein.
- **NO WARRANTY, EXPRESSED OR IMPLIED, IS MADE WHATSOEVER IN CONNECTION WITH THIS REPORT.**

****This report is subject to all LIMITATIONS AND DISCLAIMERS as stated on the final page of this report.**
