A diagram illustrating the concept of pseudo-tension. It shows a rectangular area filled with diagonal red lines sloping from top-left to bottom-right. The text "PSEUDO-TENSION" is written vertically in blue capital letters across the center of the rectangle. To the left of the rectangle, there are several colored dashed lines (blue, green, yellow) representing different stress states or boundaries. A small orange circle is located at the intersection of one of these dashed lines and the left edge of the rectangle. A purple square icon is positioned to the right of the rectangle.
