

STENNIS TECHNOLOGY PARK

LOCATE YOUR BUSINESS IN THE CENTER OF OPPORTUNITY

Hi-tech opportunity has arrived!

In the 1960's, NASA's Werner Von Braun had the dream of an adjacent technology park when he developed the Mississippi Test Operations Facility. That dream is now a reality. The Stennis Technology Park has already broken ground and we're looking for advanced-technology companies who are interested in adding a strong presence in the Southeast.

Build to suit takes on a new meaning...

Our first 30,000 square foot building is now complete. World-class companies now call the Stennis Technology Park home. We understand technology and security; we provide a facility designed to fulfill the unique needs of the technology sector. Contact us to discuss a custom plan to address specific requirements based on your unique needs.

Could you ask for more? Easy access is critical to any hi-tech company. We have it all. Located at the intersection of Interstate 10 and Highway 603 in Hancock County, Mississippi, the Stennis Technology Park is the perfect location for your company.

Cost of living in our area is 10% less than the national average - meaning the dollars you pay go further. We have excellent education and healthcare, arts and entertainment, museums, and wonderful environmental activities in our forests, lakes, rivers and the Gulf of Mexico.

And if that isn't enough, our annual average temperature of 64 degrees is a welcome breath of fresh air to just about everyone.
